

# Key Word Index

## a

adhesive arachnoiditis 131  
anterior decompression 25  
anterior release 25

## b

burst fracture 43

## c

central disc herniation 141  
clinical outcome 15

## d

disc herniation 35, 117  
discectomy 1, 35

## e

employment 63  
endoscope 63  
endoscopic discectomy 117  
endoscopic surgery 15, 117  
endoscopy 149  
extraforaminal 35  
extraforaminal herniation 108  
extraforaminal lumbar disc herniation  
99

## f

far-lateral herniation 99

## g

general anesthesia 1

## h

herniated intervertebral disc 8  
hydroxyapatite 43

## i

interbody fusion 75  
internal disc derangement 87  
intradiscal therapy 8

## l

laparoscopy 75, 108  
local anesthesia 149  
lumbar 75  
— canal stenosis 15  
— disc herniation 63  
— interbody fusion 108  
— spine 35, 117, 141

## m

microendoscopic discectomy (MED)  
15, 99  
— system 141  
microendoscopy 35, 117  
microlumbar 1  
minimally invasive spine surgery 8

mini-open lateral approach 75  
myelofiberscope 131

**n**

neuromuscular scoliosis 25  
nucleoplasty 8

**o**

osteoporosis 43

**p**

piriformis syndrome 149  
PLIF 87  
posterior endoscopic surgery 141  
posterior endplate lesion 141

**r**

redundant nerve 131  
regional anesthesia 1  
retroperitoneoscopy 108

**s**

spine 75  
surgical procedure 15

**t**

thoracoscopic 25  
3-year follow-up 63  
treatment 1

**v**

vertebral fracture 43  
vertebroplasty 43  
videotape assisted 25
