

# Index

## A

Accounts-based models, 105  
Accuracy, 49, 62, 66, 67, 69, 74, 121, 141, 169, 192, 229, 234, 250, 274, 277, 307  
ACORN, 117  
Activity space, 221  
Actor-network theory, 7, 8  
Administrative data, 115, 140  
Aerial photography, 9, 51, 53, 65, 223, 231, 308  
Africa, 202, 203, 204, 205, 207, 208, 210  
Agent-based models, 124, 126  
Agent-based spatial modeling, 17, 18, 28  
AGILE, 143  
ALARM (Assessment of Landslide Risk and Mitigation in Mountain Areas), 248  
Algorithms, v, 3, 78, 84, 107, 115, 124, 125, 133, 139, 141, 152, 157, 187, 207, 211, 261, 269, 272  
Analogue recording, 66  
Analytical cartography, 18, 107  
Annales, 87, 88, 305  
Anomalies, 6, 57, 67, 68, 203, 208  
Anopheles, 202  
Antiquity, sanctity and longevity, 71  
Application-oriented science, 137  
Applications in GIS, 84  
Approximate location, 74  
ArcGIS, 69, 79 n.21, 80, 82, 275, 276, 278, 308  
Archaeological/cognitive models, 62  
Archaeological features, 63, 67, 69, 80  
Archaeological heritage management (AHM), 60, 62, 64, 69–70, 78  
Archaeological legislation, 70  
Archaeological phenomena, 61  
Archaeological remains, 60, 62, 63, 65, 66, 67, 69, 75, 79, 307  
Archaeological surveying, 59

Archaeology Data Service (ADS), 81, 82  
Archaeometry, 60  
Archis, 70  
Arc-node model, 272  
ArcScene, 79  
ArcTron and AdLib, 69 n.8  
Area classification, 118, 119, 120  
Artefacts, 54, 55, 57, 63, 67, 73, 75, 308  
Attribute data, 79, 169  
Authority, 2, 115, 124, 220, 245, 249, 259, 292, 309  
Auto-identification, 31–45  
Awareness space, 220

## B

Bayesian analysis, 18  
‘Bid-rent’ model, 136  
Bid-rent theory, 136, 153  
Biometry, 39, 43  
Blut und Boden, 88  
Braudel, F., 87  
Brier Skill Score, 209  
Buffer, 145, 260, 261, 264, 293  
    zone, 145  
Burglary, 220, 224

## C

C14 dating, 63, 85  
CAD (Computer aided design), 71, 80, 241, 256, 260  
Canadian Geographical Information System (CGIS), 169  
Cartograms, 21, 107, 108, 109  
Cartographical school, 218  
CASWEB, 114  
CAVE (Cave Automatic Virtual Environment), 261
