

Index

Note: The letters ‘f’ and ‘t’ following the locators refers to figures and tables respectively.

A

Ab initio calculations, 398, 407f

B

Basin modelling, 29, 146, 189, 190, 194–195, 199, 202–209, 214

C

Compressional tectonics, 30, 200, 316, 318, 323f, 326, 338, 339, 341f
Continental collision, 11, 22f, 106f, 108, 117, 118, 174, 249, 327, 380
Crustal deformation, 201f, 252, 351, 355
Crust and mantle lithosphere, 28, 105, 115, 135, 238, 239, 240

D

3D crustal model, 39–66
Diamond, 13f, 20, 31, 170f, 271f, 373–391, 397, 399, 405f, 407f
Diffuse plate boundaries, 29, 238, 238f, 240, 241
Dynamic topography, 4, 5, 23, 24f, 130, 159, 167, 180, 181, 212

E

Earth monitoring, 2, 147, 212
Earthquakes, 3, 6, 8, 9, 12–15, 18, 18f, 22, 26, 29, 30, 31, 81, 147, 148, 161, 167, 173f, 176, 214, 235–258, 261, 262–275, 276f, 277, 278, 279f, 280, 281, 282, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296–298, 299f, 300–302, 303, 304, 305, 307, 308, 309, 318, 323f, 325, 353, 356, 357, 358f, 360, 361
Earth’s inner core, 31, 397–410
Elastic properties, 32, 73, 398, 407, 409

Electron microscopy, 31, 163, 374–376
Episodic tremor and slip (ETS), 288–289, 291, 292, 294, 296, 298, 299f, 300, 302, 303, 306, 307, 308
EuCRUST-07, 27, 28, 40, 41, 43, 44, 45f, 48–49f, 53–60, 64, 65, 72, 82, 97

F

Focused ion beam, 31, 374–376, 390

G

Glacial isostatic adjustment (GIA), 25, 31, 349, 350, 351f, 352f, 355, 358, 359, 360, 361, 363
Global positioning system (GPS), 18, 19, 31, 172f, 176, 199, 214, 238, 239, 243, 245, 250–252, 255, 256, 258, 264, 271, 278, 288, 289f, 316, 323, 325, 350, 351, 353f, 359, 360, 361f

I

ILP task force on sedimentary basins, 211
Iron and iron alloys, 32, 398, 403–409

L

Lithosphere, 2, 4, 5, 6, 7, 9–11, 12, 15, 16, 17, 19–21, 23, 24f, 25, 26, 28, 29, 30, 31, 40, 48, 71–98, 103–138, 146, 147, 149, 153f, 157–188, 193, 194, 197, 199–202, 203f, 211, 212, 236, 238f, 239, 240, 241, 243, 278, 316, 349, 350, 352, 355, 356, 358, 359, 360, 365, 366, 389
Lithosphere rheology, 112–115, 159–188, 201f

M

Magma transport, 31, 326, 339, 340
Mantle, 2, 4, 5, 6, 9, 10, 11, 12, 17, 19, 20, 21, 23, 25, 25f, 26, 27, 28, 29, 31, 39–66, 72, 73, 74, 75,

- 76, 77, 78, 80, 81, 82, 83t, 84, 85f, 88, 90, 91, 92f, 93f, 94, 95, 97, 98, 105, 105f, 108, 112, 113–114t, 115, 116, 116f, 117, 118, 119, 124, 125, 126f, 129f, 131–132, 133, 134, 135, 136, 138, 146, 147, 148, 152f, 153f, 154–159, 160, 161, 162f, 163, 164f, 165f, 166f, 167, 168f, 169, 170f, 171f, 172f, 174, 180, 181, 182f, 183, 185, 186, 197, 211, 212, 213f, 214, 236, 238, 239, 240f, 305, 322, 326, 337, 338, 349–367, 373, 374, 376, 377, 378, 379, 380, 381, 382, 383, 388, 389, 390, 398, 410t
- Mantle dynamics, 6, 21, 25–26, 31, 105, 119, 125, 157, 174, 197, 214, 349–367
- Mineral physics, 10, 75, 397–410
- Modeling, 11, 15, 16, 18, 19f, 27, 39, 133, 241, 245, 254, 278, 282, 301, 303, 304, 309, 352f, 363
- Mountain building, 11, 103–138, 194–202, 212, 318
- P**
- Paleoseismic record, 243–245
- Q**
- Quaternary climate, 6, 25–26, 31, 349–367
- R**
- Reconstruction of the past, 4
- Reverse faults, 8, 9, 30, 31, 249, 316–326, 339, 340, 341f, 353, 354f
- S**
- Sedimentary basins, 2, 4, 5, 6, 7, 9, 15–17, 29, 107, 109, 110, 145–214
- Seismic monitoring, 30, 214, 249–250, 256, 258, 261–282
- Seismic tremor, 243
- Slow earthquakes, 18, 288, 290, 299f, 308
- Slow-slip, 30, 288, 289, 290f, 302, 303, 304, 307, 308, 309
- Solid earth dynamics, 1–33, 147, 163, 174–188, 212–214
- Solid earth process modelling, 2, 3, 4, 23, 200, 212
- Source to sink, 22f, 29, 188, 195, 197
- Strike-slip faults, 9, 30, 178, 208, 237, 269, 278, 291f, 304, 315–341
- Surface processes, 2–3, 4, 5, 16, 23, 28, 29, 103–138, 146, 147, 157, 166, 167, 189, 194, 197, 199–202, 212, 214, 361
- Synchrotron, 31, 192, 374, 376, 378, 383, 384, 385, 386f, 390, 391, 406
- T**
- Tremor, 30, 243, 272, 287–309
- U**
- Ultrahigh-pressure metamorphism, 11, 381, 382
- V**
- Volcanism, 9, 17, 19, 30, 76, 80, 82, 97, 157, 167, 315–341
