

INDEX

A

Actualism, 103
Alemán, Anastasio, 32
Amsterdam lectures, 92
Analysis
 complex, 42
 constitutional, 12, 21
 modern, 109
Analytic philosophy, 47, 68
Annihilation of the world, 10–11
Anschauung, 78, 90, 94
Anthropoid apes, 200
Anti-chain, 186
Anti-psychologism, 93, 108
Anti-realism, 3–4, 154
 about mathematics, 3
Apodictic, 56, 73–74, 77, 84–85, 87,
 90, 140
Apollonius, 143
Appearance/reality distinction, 15–16
Application problem, 165–166, 178
Aristotelian, 5, 57–58, 95, 98, 100, 108,
 117–118
 logic, 57–58
 realism, 5
 realist, 5–6
 syllogistics, 118
Aristotelianism, 108, 117
Aristotle, 95–97, 99–100, 108, 117–118
Arithmetica universalis, 114, 132
Attitude
 natural, 10, 15
 phenomenological, 10
Axiom of
 choice, 7–8, 30–32, 40

 complete induction, 87
 completeness, 66–67
 comprehension, 101
 extensionality, 63, 68
 infinity, 7
 power set, 7
 replacement, 7
Axiom V, 30–32, 40, 110

B

Barwise, Jon, 183
Beaney, Michael, 44
Becker, Oskar, 26
Benacerraf, Paul, 33, 41, 148–149,
 151–152, 178–179
 structuralism, 155–169
Benacerraf's Dilemma (BD), 148–149,
 151–156, 160, 165–167,
 178–179
Benoist, Jocelyn, 118
Berkeley, George, 85–86
Berlin, 42, 67, 110, 115, 193, 200
Bernet, Rudolf, 120
Beth, Evert W., 26, 92, 102
Bishop, Errett, 25, 32
Block, Ned, 30, 158–159
Bochenski, Josef Maria, 126
Bohr, Niels, 25
Bolzano, Bernhard, 24, 109
Boole, George, 126, 132
Bourbaki, Nicolas, 24, 27
Bracketing, 9–10, 19, 170
Brentano, Franz, 47, 80, 92, 96, 99, 113,
 126, 176

- Brouwer, L.E.J., 20, 23, 25–26, 28, 32, 47–48, 50, 52–53, 55, 63–66, 68
