

INDEX

- acral lentiginous melanoma 40–1, 42 (fig.)
- actinic keratosis (solar keratosis; senile keratosis) 14–17
 - clinical features 15–16
 - histology 16–17
 - management 17
- AIDS patients, HIV retrovirus-affected 70
- amyloidosis 90 (table)
- angioimmunoblastic lymphadenopathy 90 (table)
- arsenic 2, 18
- atypical multicentric reticulohistiocytosis with paraproteinaemia 90–1
- atypical necrobiosis lipoidica 90
 - pathology 82
 - treatment 84
- basal cell epithelioma (basal cell carcinoma; basalioma) 21–4, 47
 - clinical features 21–3, 47
 - histology 23–4
 - management 28–30
 - chemotherapy 30
 - radiotherapy 29
 - surgery 28–9
 - ultraviolet light-induced 2, 21
- basal cell naevus syndrome 1
- basal cell papilloma *see* seborrhoeic keratosis
- B-cell cutaneous lymphoma 67, 68
 - clinical course 82–3
 - carcinoma cuniculatum 25, 27 (fig.)
 - chemicals, tumour-inducing 2
 - compound melanocytoma (juvenile melanoma; Spitz naevus) 45
 - compound naevus 44
 - cutaneous T-cell lymphoma 69
 - cyclophosphamide 114–15
 - cylindroma 1
- Becker's naevus 5
- benign hypergammaglobulinaemic purpura of Waldenström 90 (table)
- benign melanocytic tumours 43
- blue naevus 44
- Bowenoid papulosis (multicentric pigmented Bowen's disease of genitalia) 19, 20
- Bowen's disease 2, 18–21
 - clinical features 18–19
 - histology 20
 - management 20–1
- Degos' acanthoma (clear cell acanthoma) 8–10
- dermatitic naevus (inflammatory linear verrucous epidermal naevus) 4–5
- dermatitis herpetiformis 90 (table)
- dermatofibroma (sclerosing angioma) 46

INDEX

- dermatosis papulosa nigra 7
- desmoplastic melanoma 42
- dysplastic naevi 48–9
- dysplastic naevus syndrome 36, 48
management 49
- epidermal naevus 2–6
 - clinical features 3
 - histology 6
 - management 6
- epidermal naevus syndrome 5–6
- epithelial tumours 2
 - scalp 2
- erythema elevatum diutinum 90 (table)
- erythema induratum 101
- erythrodermic eczema (and Murray
Williams warts) 7
- erythroplasia of Queyrat 18 (fig.), 19
- extramedullary plasmocytoma 90 (table)
- Ferguson–Smith disease (multiple self-
healing squamous epithelioma) 12, 13
- generalized eruptive keratoacanthoma 12
- generalized plane normolipaemic
xanthoma 100
- generalized plane xanthomatosis 90 (table)
- granuloma, foreign body 101
- granuloma annulare 101
- Graves' disease 110
- haemangioma 46–7
- halo naevus 44–5
- HTLV1 disease 70
- Hutchinson's melanotic freckle 33, 35
 - melanoma arising in (lentigo maligna
melanoma) 39–40
- IgG paraprotein 110
- inflammatory linear verrucous epidermal
naevus (dermatitic naevus) 4–5
- intra-dermal naevus 44
- Jessner's lymphocytic infiltrate 85
- junctional naevus 43
- juvenile melanoma (Spitz naevus; com-
pound melanocytoma) 45
- juvenile xanthogranuloma 100, 101
- keratoacanthoma (molluscum
sebaceum) 10–14
 - differential diagnosis 13–14
 - generalized eruptive 12
 - histology 12–14
 - management 14
- keratoacanthoma centrifugum
marginatum 12
- lentigo maligna melanoma 39–40
- Leser-Trélat's sign 7
- lichen myxoedematosus 109
 - IgG paraprotein 110
- lymphocytic infiltrate, Jessner's 85
- lymphocytoma cutis 84–5
- lymphocytoma developing into xantho-
granuloma 91
- lymphoma
 - B-cell 67, 68
 - cutaneous 67–86
 - T-cell 68; *see also* cutaneous T-cell lym-
phoma
- lymphomatoid papulosis 85–6
- malignant melanoma 33–64
 - clinical diagnosis 37–8
 - clinical presentation 36–7
 - clinico-pathological types 38–43
 - acral-lentiginous 40–1, 42 (fig.)
 - desmoplastic 42
 - lentigo maligna 39–40, 41 (fig.)
 - nodular 39, 40 (fig.)
 - subungual 41
 - superficial spreading 38–9
 - differential diagnosis 43–8
 - haemangioma 46–7
 - intracutaneous haemorrhage 47
 - naevi 43–5, 48–9
 - pigmented basal cell carcinoma 47

TUMOURS, LYMPHOMAS AND SELECTED PARAPROTEINAEMIAS

- malignant melanoma,
 - differential diagnosis (**continued**)
 - pigmented squamous cell carcinoma 47
 - pyogenic granuloma 46
 - sclerosing angioma 46
 - seborrheic keratosis 45–6
 - solar (senile) lentigo 45
 - education, public/professional 63–4
 - epidemiology 34–6
 - excisional biopsy 52–3
 - familial 1, 35–6
 - fluorescent light-induced 35
 - histological reporting 50
 - historical aspects 33–4
 - lymph node involvement 42–3
 - management decisions 50–2
 - metastatic 42–3
 - microstaging 49–50
 - prognostic factors 53–6
 - prognostic index 56
 - racial incidence 34
 - skin cancer associated 35
 - spontaneous regression 36
 - surgical treatment 56–61
 - evolution 56–8
 - follow-up 61
 - recurrent disease 61–2
 - regional lymph nodes 60–1
 - survival data 62
 - ultraviolet light-induced 2, 34–5
- melanocytic malignant tumour 1
- melfalan 114
- mineral oils 2
- Moh's micrographic surgery 29
- multicentric pigmented Bowen's disease of
 - genitalia (Bowenoid papulosis) 19, 20
- multiple self-healing squamous epithelioma
 - (Ferguson-Smith disease) 12, 13
- Murray Williams warts (in erythrodermic
 - eczema) 7
- mycosis fungoides 67, 68–81
 - clinical course 72–3
 - history 68–9
 - immunology 70
 - incidence 69
 - pathology 69–70
 - staging
 - treatment 73 (fig.), 74–81
 - chemotherapy 79–81
 - electron beam therapy 78–9, 80 (fig.)
 - immunotherapy 81
 - PUVA 74–5
 - superficial X-ray 76–7
 - symptomatic 74
 - topical nitrogen mustard 77–8
 - Worringer and Kolopp variant (Pagetoid
 - reticulosis) 68–9, 77 (fig.)
- myeloma, associated diseases 90 (table)
- naevus
 - Becker's 5
 - blue 44
 - compound 44
 - epidermal *see* epidermal naevus
 - halo 44–5
 - intradermal 44
 - junctional 43
 - Spitz (juvenile melanoma; compound
 - melanocytoma) 45
- naevus sebaceous (organoid naevus) 3–5
- naevus unius lateris 3
- necrobiosis lipoidica 100–1, 101
- necrobiotic xanthogranuloma 80–103
 - clinical findings 91–4
 - course 102
 - diagnosis 100
 - differential 100–2
 - extracutaneous granulomatous disease
 - 98
 - histopathological findings 98–100
 - laboratory findings 94–8
 - management 102–3
- nitrogen mustard, topical 77–8
- non-Hodgkin's lymphoma
 - pathological classification 82, 83 (table)
 - treatment 84
- organoid naevus (sebaceous naevus) 3–5

INDEX

- Pagetoid reticulosis (Worringer and Kolopp variant of mycosis fungoides) 68–9, 77 (fig.)
- paraproteinaemia, associated cutaneous diseases 90 (table)
- paraprotein synthesis 110
- pilar cyst 1
- plasmocytoma, extramedullary 90 (table)
- POEMS syndrome 90 (table)
- poikiloderma atrophicans vasculare 68
- pretibial myxoedema 110
- pseudolymphoma of Spiegler Fendt 85
- PUVA 74–5, 115
- pyoderma gangrenosum 90 (table)
- Queensland Melanoma Project 57, 63–4
- radiant heat 2
- RNA retrovirus antibodies 70
- Rothmann–Makai panniculitis 101
- sarcoid, atypical 101
- scleroedema adultorum 90 (table)
- scleromyxoedema 90 (table), 105–16
 - associated diseases 113
 - bone marrow examination 111
 - clinical appearance 105–7
 - histology 107–8, 109 (fig.)
 - IgG λ paraproteinaemia 110–11
 - management 113–16
 - dermabrasion 118
 - cyclophosphamide 114–15
 - cytotoxic agents 114–15
 - melfhalan 114
 - photochemotherapy 115
 - plasma exchange 115–16
 - radiotherapy 115
 - retinoids 116
 - neurological complications 111–12
 - post-mortem findings 112–13
- sclerosing angioma (dermatofibroma) 46
- seborrhoeic keratosis (seborrhoeic warts; senile warts; acanthotic naevus; basal cell papilloma) 6–8, 45–6
 - acanthotic 7, 8 (fig.)
 - hyperkeratotic 7, 9 (fig.)
 - senile keratosis *see* actinic keratosis
 - senile (solar) lentigo 45
 - senile wart *see* seborrhoeic keratosis
- Sézary syndrome 67, 81
 - atypical circulating cells 69
- solar keratosis *see* actinic keratosis
- solar (senile) lentigo 45
- soot 2
- Spiegler Fendt's pseudolymphoma 85
- Spitz naevus (juvenile melanoma; compound melanocytoma) 45
- squamous cell carcinoma 25–8, 47–8
 - clinical features 25–6
 - histology 26–7
 - management 28–30
 - chemotherapy 30
 - radiotherapy 29
 - surgery 28–9
 - ultraviolet light-induced 2
- squamous epithelioma, multiple self-healing (Ferguson-Smith disease) 12, 13
- stucco keratoses 7
- subcorneal pustular dermatosis 90 (table)
- sunscreens 63
- tar products 2
- T-cell lymphomas 68; *see also* cutaneous T-cell lymphoma
- Torre's syndrome 12
- trichoepithelioma 1
- ultraviolet light 2
- xanthelasma 100–1'
- xanthogranuloma
 - juvenile 101
 - necrobiotic *see* necrobiotic xanthogranuloma
- xanthoma
 - generalized plane normolipaemic 100
 - hyperlipidaemia-associated 100
- xanthoma disseminatum 100
 - unusual forms (necrobiotic xanthogranuloma) 91
- xeroderma pigmentosum 1
- X-rays 2
