

# BIBLIOGRAPHY OF SOCIO-ASTRONOMY

## Introduction

The following lists gather together papers and books published (from 1980 onwards) in socio-astronomy and on the interactions of the astronomy community with the society at large. A few related contributions have also been included, as well as the decennial reports from the US National Research Council. The first list is chronological and the second one, purely alphabetical on the authors names.

It is of course impossible such a list be complete and we apologize in advance to authors whose related publications could have been omitted. For inclusion in future releases of this compilation and of its web version<sup>1</sup>, please send an e-mail (to [heck@astro.u-strasbg.fr](mailto:heck@astro.u-strasbg.fr)) with the full bibliographical references (including title).

The Editor gratefully acknowledges the assistance of all persons who contributed to the substance of the following list by sending in references and/or reprints of papers.

## Chronological list

The following list is alphabetical on the first authors within the successive years.

### 1980

1. Abt, H.A. 1980, The cost-effectiveness in terms of publications and citations of various telescopes at the Kitt Peak National Observatory, *Publ. Astron. Soc. Pacific* **92**, 249
2. Stebbins, R.A. 1980, Avocational science: The avocational routine in archaeology and astronomy, *Int. J. Comp. Sociology* **21**, 34-48
