INDEX OF SUBJECTS

- Absolute magnitudes
 - carbon stars 119
 - irregular variables 117
 - Mira variables 118
 - M stars 115f
 - semi regular variables 117
 - S stars 119f
- Auwers' stars 20
- Balmer discontinuity 38ff, 47, 51ff
- Barred spirals
 - asymmetries 227
 - gas flow 275f
 - rotation 273ff
- BBGKY theory 205ff
- Binary stars
 - effect on photometry 59f
 - statistics 300f
- Bremsstrahlung 157ff
- Carbon stars
 - absolute magnitudes 119
 - bolometric corrections 119
 - effective temperatures 119
 - galactic distribution 122ff
 - intrinsic colors 119
 - pairs of 127f
 - space density 129
 - space distribution 125, 132
 - surface distribution 127f
 - spectral classification 111f
 - velocity distribution 119
