BASIC TEXTS IN COUNSELLING AND PSYCHOTHERAPY

Series Editor: Stephen Frosh

This series introduces readers to the theory and practice of counselling and psychotherapy across a wide range of topic areas. The books will appeal to anyone wishing to use counselling and psychotherapeutic skills and will be particularly relevant to workers in health, education, social work and related settings. The books in this series are unusual in being rooted in psychodynamic and systemic ideas, yet being written at an accessible, readable and introductory level. Each text offers theoretical background and guidance for practice, with creative use of clinical examples.
