Acknowledgements

Many people have helped in the preparation of this book, both directly and indirectly. Catherine Gray has been a helpful editor and has supported this project at every stage. I'd like to thank my colleagues at the University of the West of England for their support over a number of years. In particular Alison Assiter, John Bird, Anthony Elliott, Jem Thomas and Tamsin Wilton. This book was developed within the vibrant atmosphere of the Centre for Psycho-Social Studies at UWE which has close working links with colleagues around the world and has provided an interdisciplinary base for social research. My special thanks go to Paul Hoggett, Michael Rustin and Robert Young who have all helped enormously with this project in different ways. Finally, I'd like to thank John Solomos and Phil Cohen for their critical reading of the original typescript and their helpful and insightful comments.
