List of Figures

4.1	Annual number of start-ups according to age of applicant	95
4.2	Mean job satisfaction (on a 1–5 scale) in career and bridge job for self-employed and wage-employed persons	101
4.3	Mean pre- and post-retirement life satisfaction according to labour force attachment	103
6.1	Entrepreneurial processes of MCEs	137
7.1	Employment rates among Canadian men and women 65 years of age and older	167
7.2	Paid employment and self-employment as a proportion of employed senior men and women	168
7.3	Self-employment rates by province	169
7.4	Self-employment categories	170
7.5	Self-employed Men and Women as a percentage of total employed, by age group	174
9.1	Labour force participation and self-employment, men, 50–75	218
9.2	Distribution of weekly hours worked, if participating, men, 50–75	226

List of Tables

1.1	Self-employment measures by year	16
1.2	Outcome variables	17
1.3	Expected retirement age	19
1.4	Retirement literacy and planning outcomes	20
1.5	Selected regression results – expected retirement age	23
1.6	Selected regression results – other outcomes	24
1.7	Selected regression results – other outcomes	25
A.1	Yearly cross-sectional regression results – expected retirement age – current self-employment status	28
A.2	Yearly cross-sectional regression results – expected retirement age – part-time or full-time self-employment status	29
A.3	Yearly cross-sectional regression results – expected retirement age – mostly self-employed during career	30
A.4	Yearly cross-sectional regression results – expected retirement age – self-employment intensity during the HRS waves	31
A.5	Yearly cross-sectional probit/regression results – other outcomes: Part I – current self-employment status	32
A.6	Yearly cross-sectional probit/regression results – other outcomes: Part I – part-time or full-time self-employment status	33
A.7	Yearly cross-sectional probit/regression results – other outcomes: Part I – mostly self-employed during career	34
A.8	Yearly cross-sectional probit/regression results – other outcomes: Part I – self-employment intensity during the HRS waves	35
A.9	Yearly cross-sectional probit results – other outcomes: Part II – current self-employment status	36
A.10	Yearly cross-sectional probit results – other outcomes: Part II – part-time or full-time self-employment status	37
A.11	Yearly cross-sectional probit results – other outcomes: Part II – mostly self-employed during career	38
A.12	Yearly cross-sectional probit results – other outcomes: Part II – self-employment intensity during the HRS waves	39

2.1	Research participants	50
2.2	Typologies	56
4.1	Descriptive statistics	98
4.2	Job characteristics of self- and wage-employed retirees	100
5.1	Summary statistics for the variables	123
5.2	Logit model results	124
7.1	Self-employment categories for seniors, 2011	170
7.2	Top 10 occupations – self-employed seniors, 2011	172
7.3	Income in 2010 – self-employed versus paid employees	179
7.4	Income dispersion measures – self-employed versus paid employees	180
7.5	Ordinary least squares estimates	181
8.1	Description of the RHE and HE samples	197
8.2	Motives and sources of business ideas of RHEs and HEs	198
8.3	Probability of full-time entrepreneurship of RHEs and HEs	199
8.4	Growth aspirations of RHEs and HEs	200
8.5	Growth mechanisms of RHEs and HEs	201
8.6	Logistic regression analysis on growth aspirations	202
9.1	Sample characteristics (sample means)	213
9.2	Labour force participation and self-employment rates	214
9.3	Labour force participation and retirement incentives	216
9.4	Industry and occupation	217
9.5	Average age when first drawing some pension income or when retired	219
9.6	Labour market transitions between waves 1 and 2	220
9.7	Social Security for the self-employed	222
9.8	Self-employment and characteristics	228
9.9	Hours worked per week	234
9.10	Hours worked, self-selected self-employment	237
9.11	Retirement reasons and previous self-employment	240
9.12	Aspirations towards early retirement	242
9.13	Probability of retiring between waves 1 and 2	247

Acknowledgements

We thank the academics – Oswald Jones, Dilani Jayawarna, Mark Crowder, Robert Lee and David Taylor – who kindly reviewed our submissions and provided valuable feedback to the contributing authors.

Consent has been given and interviewees have been anonymised. On behalf of our contributors, we thank all those who have kindly participated in the research featured in this book.

Notes on Contributors

Natalie Sappleton (Editor) is a senior lecturer at Manchester Metropolitan University Business School. Her research interests are in the intersections between social networks, gender segregation and gender stereotyping in the context of entrepreneurship. She has been involved in research programmes including Women Audio Visual Engineers (WAVE), Women in North West Engineering, and numerous investigations into sex discrimination at the Equality and Human Rights Commission. Natalie received her MA in economics and politics at the University of Glasgow and her Master's in Research from Manchester Metropolitan University. Her PhD thesis investigates the role of gender role (in)congruency on the ability to acquire resources among New York City entrepreneurs.

Fernando Lourenço (Editor) is an assistant professor at the Institute for Tourism Studies, Macau, teaching business and management, entrepreneurship and design courses. He was previously a senior lecturer in Entrepreneurship at Manchester Metropolitan University, where he ran an award-winning course that helped hundreds of students become entrepreneurs. In 2009 he was awarded the National Enterprise Educators Award (UK). He has supported and invested in a number of businesses in the cultural and creative industries and co-founded numerous associations in Macau. He has published research papers in the *International Small Business Journal*, *International Journal of Entrepreneurial Behaviour and Research*, *Journal of Small Business and Enterprise Development*, *Business Ethics: A European Review*, *Gender in Management* and *International Review of Entrepreneurship*.

Robert Blackburn is a professor and an associate dean at Kingston Business School, and the director of the Small Business Research Centre (SBRC).

Donald Bruce is the Douglas and Brenda Horne Professor of Business, Department of Economics and the Center for Business and Economic Research (CBER), University of Tennessee. His work focuses on the empirical analysis of the behavioural responses to taxation policy, especially regarding self-employment and entrepreneurial activity. At CBER he conducts policy research and evaluation for a wide variety of government agencies at the federal and state levels. He received a

BA in economics from Drew University and an MA and PhD in economics from Syracuse University.

Tami Gurley-Calvez is an assistant professor in the Department of Health Policy and Management at the University of Kansas. Her research interests include health economics, entrepreneurship and tax policy. She received a PhD and a master's in economics from the University of Tennessee–Knoxville and a BA in economics and political science from the University of Colorado–Boulder. Prior to joining the University of Kansas faculty in 2012, she was on the faculty at West Virginia University; prior to that, she was at the US Government Accountability Office.

Leonie Hallo is an adjunct senior research fellow at the University of South Australia, where she supervises doctoral students and is a facilitator in the MBA program, both online and on-campus. She also holds an adjunct academic appointment at Torrens University, teaching in the MBA program. Her research interests are in culture, change and values.

Stefan Hochguertel is Associate Professor of Economics in the Department of Economics, VU University Amsterdam, and a research fellow of the Tinbergen Institute and of Netspar. He holds a degree in economics from the University of Munich and a PhD in Economics from Tilburg University. He has held previous research positions at Uppsala University and the European University Institute (Florence, Italy). His research includes analyses of household and consumer financial and labour market behaviour, ranging from topics in saving, consumer credit and portfolio choice to issues in retirement and self-employment. His research has been published in the *Economic Journal*, the *Review of Economics and Statistics*, the *Journal of the European Economic Association*, and the *International Economic Review*.

Kandice A. Kapinos is health and labour economist at the RAND Corporation. Her research focuses on health and labour economics, health services research and the economics of prevention. She completed a post-doctoral fellowship at the Center for Chronic Disease Outcomes Research at the Minneapolis VA Medical Center, a VA Health Services Research and Development (HSR&D) Center of Excellence. She received her PhD in human resources and industrial relations (labour economics specialization) from the University of Illinois at Urbana-Champaign.

Teemu Kautonen is Associate Professor of Entrepreneurship at the Aalto University School of Business and a professor at Anglia Ruskin University in the Institute for International Management Practice (IIMP).

Ewald Kibler is Assistant Professor of Entrepreneurship at the Aalto University School of Business in the Department of Management Studies.

Oliver Mallett is Lecturer in Management at Durham University Business School. His research focuses on follower-centric approaches to leadership considered as a socially constructed process and how these relate to personal and social identity within organisations. He is also involved in ongoing research exploring informality and employment relationships in small firms.

Margaret Patrickson currently holds three adjunct academic appointments at Australian universities, being an adjunct associate professor at the University of South Australia, Torrens University and the University of Canberra, where her roles involve doctoral supervision and acting as facilitator in both MBA programs in Human Resource Management and DBA classes in research methodology. With four books published and over 30 papers in academic journals and more than 20 conference presentations, she has been an active researcher in both general HR topics and specific topic areas that address the issues facing older workers and those nearing retirement.

Alison Say is a senior executive with the Bank of America Merrill Lynch in Singapore. She has also held expatriate appointments with the bank in Ireland. Her academic interests lie in career management and entrepreneurship.

Hanna van Solinge is employed at the Netherlands Interdisciplinary Demographic Institute (NIDI) in The Hague, the Netherlands. Her main field of research is older workers and retirement. She is particularly interested in the role of employment in later life in relation to health and well-being, as well as in the factors preventing older workers from realizing their preferences with regard to (paid or unpaid) employment.

Erno T. Tornikoski is Professor of Entrepreneurship at Grenoble École de Management, where he is in charge of the research team in new venture creation and growth. His research interests are related to organizational emergence (nascent activities, legitimacy, initial conditions), new venture growth, formation of entrepreneurial intentions and hybrid entrepreneurship. His work has been published in *Journal of Business Venturing*, *Entrepreneurship Theory & Practice*, *Small Business Economics* and *International Small Business Journal*. He is currently a

consulting editor for *International Small Business Journal* and a member of the review board of *Entrepreneurship Theory & Practice*, *Journal of Small Business Management* and *Journal of World Business*.

Sharanjit Uppal is a senior research economist with Statistics Canada. He received his PhD in economics from the University of Manitoba. His areas of research include labour economics, economics of ageing and population health. He has published articles in the *International Journal of Manpower*, *Applied Economics*, *Social Science and Medicine*, *Journal of World Health and Population*, *Health Reports*, *Perspectives on Labour and Income*, *Insights on Canadian Society*, *Education Matters* and *International Journal of Health Services*.

Elina Varamäki works as a research manager and an associate professor at the Seinäjoki University of Applied Sciences, Finland. Her research interests include business transfers and successions of SMEs, SME networking, entrepreneurial intentions, growth strategies of SMEs and part-time entrepreneurship. Her publications have appeared in *Entrepreneurship and Regional Development*, *Journal of Enterprising Culture, Education & Training*, *Management Decision*, *International Journal of Networking and Virtual Organizations*, *Journal of Entrepreneurship and Small Business*, *Business Review*, *International Journal of Entrepreneurship and Innovation* and *Journal of Information Systems in the Service Sector*.

Anmari Viljamaa, PhD, works as a Principal Lecturer in the Business School of Seinäjoki University of Applied Sciences, Finland. Formerly, she was a Vice Dean for Entrepreneurship in the Business School. Her research interests include, in addition to hybrid entrepreneurship, the use and purchasing of expert services in SMEs, small business market orientation, entrepreneurship education and innovation systems. Her research has been published, for example, in *Entrepreneurship & Regional Development*, *International Small Business Journal* and *The Service Industries Journal*.

Thomas Wainwright is Associate Professor of Strategy and Innovation at the University of Southampton Business School and Director of the Centre for Innovation and Enterprise (CIE).

Robert Wapshott is Lecturer in Entrepreneurship at Sheffield University Management School. His main research interests include employment relationships in SMEs and issues of diversity in entrepreneurship and self-employment. Currently, he is researching changes in the employment relationships of growing SMEs.

Ting Zhang is an assistant professor in the College of Public Affairs, an associate director of the Jacob France Institute and a Faculty Fellow at Schaefer Center for Public Policy of the University of Baltimore. Her research interests include entrepreneurship and aging, workforce development, education and labour, welfare-to-work, business and employment dynamics and regional economy. She is the author of *Elderly Entrepreneurship in an Aging Economy: It's Never Too Late* and numerous journal articles. Her research has been quoted by *Time* magazine, *Bloomberg Businessweek*, *Newsweek* and the *Baltimore Sun*. She was a winner of the national Kauffman Dissertation Fellowship Award and a finalist in the International Charles Tiebout Prize for Regional Science. She previously conducted research at George Mason University, the World Bank, the Urban Institute and the Council of Graduate Schools.
