Notes on Contributors

Yasin Akçelik received a BA in Economics from Bilkent University in 2004. He obtained his MA and PhD degrees in Economics from Ohio State University in 2006 and 2011, respectively. He received a university scholarship at Bilkent University and a university fellowship and Departmental Citation for Excellence in Teaching and Graduate Associate Teaching Awards at Ohio State. He worked as a research and teaching assistant and taught classes on international trade and development economics as an instructor at Ohio State. He also worked as a consultant in the Credit Risk Modeling Department at JPMorgan Chase Bank in 2006. He joined the Central Bank of the Republic of Turkey as an economist in 2011. His research focus is monetary economics, international trade and political economy.

Erdem Başçı earned his PhD in Economics from Bilkent University in 1995. His research and teaching areas during his academic tenure were monetary economics, financial economics, macroeconomic theory and mathematical economics. Başçı's papers have been published in *Oxford Economic Papers*, *Journal of Banking and Finance*, *Journal of Economic Dynamics and Control* and *Journal of Mathematical Economics*. During his first term as a deputy governor of the Central Bank of the Republic of Turkey, he served as a G20 deputy while also being in charge of the banking and financial institutions department. In his second term as a deputy, he was responsible for the research and monetary policy department and the statistics department. Başçı was appointed as the governor on 19 April 2011.

Brittany A. Baumann is a recent PhD graduate in Economics at Boston University and currently works as an economist at The Clearing House Association in New York.

Paul Castillo B. is Deputy Manager of Monetary Policy at the Central Bank of Peru. He holds a PhD in Economics from the London School of Economics, and he is also Professor of Economics at Pontificia Universidad Católica del Perú. He has produced research on dollarization and its effects on monetary policy, informal labor markets and its consequences on inflation dynamics, and on models for studying monetary policy in small open economies.

Ergun Ermişoğlu earned a BA in Economics from the Boğaziçi University in 2003. He received his MA in Applied Economics from the University of Michigan in 2010. He now continues his PhD in Banking and Finance in Yıldırım Beyazıt University. He worked as an assistant auditor at the Turkish Court of Accounts, before joining the Central Bank of the Republic of Turkey (CBRT) as an assistant specialist. He now works as a specialist at the governor's office at CBRT. Monetary economics, financial economics, banking and macroeconomic theory are his research areas.

Kevin P. Gallagher is Associate Professor of International Relations at Boston University where he co-directs the Global Economic Governance Initiative.

Refet S. Gürkaynak is Professor of Economics at Bilkent University and a research fellow of the Center for Economic Policy Research, Center for Financial Studies and CESifo. He has a BA from Bilkent and a PhD from Princeton Universities, both in Economics. Gürkaynak's research interests are monetary economics, financial markets and international economics. In particular, he works on extracting information from asset prices that help answer monetary policy related questions.

Joseph E. Stiglitz is University Professor at Columbia University. In 2001, he was awarded the Nobel Prize in Economics for his analyses of markets with asymmetric information. He was the President of the International Economic Association from 2011 to 2014.

Arif Oduncu received his BS in Electrical Engineering (summa cum laude, high honors) in 2003 and MS in Electrical Engineering in 2004

from Texas A&M University. He obtained his MS in Economics in 2006 and PhD in Economics in 2009 from University of Texas at Austin. He has received Regents' Graduate Fellowship, Undergraduate Research Fellowship and Texas A&M Academic Excellence Awards. He was a summer associate at the Projections and Modeling Unit at the US Congressional Budget Office in summer 2006. He worked as a teaching assistant at the University of Texas at Austin before joining the Central Bank of Turkey as an economist. His research areas are macroeconomics, financial economics and monetary economics.

Jonathan D. Ostry is a deputy director of the research department (RES) at the International Monetary Fund. His current responsibilities include leading staff teams on IMF-FSB Early Warning Exercises on global systemic macrofinancial risks; multilateral exchange rate surveillance; international financial architecture and capital account management; and fiscal sustainability issues. Past positions include leading the division that produces the IMF's flagship multilateral surveillance publication, the *World Economic Outlook*, and leading country teams on Australia, Japan, New Zealand, and Singapore. Ostry is the author/editor of a number of books on international macro policy issues, and numerous articles in scholarly journals. He holds undergraduate degrees from the University of Oxford (Balliol College) and Queen's University (Canada), and graduate degrees from the London School of Economics (MSc, 1984) and the University Chicago (PhD, 1988).

Ming Zhang is a senior research fellow and the director of the Department of International Investment, Institute of World Economics and Politics (IWEPI) under the Chinese Academy of Social Science (CASS). His research covers international finance and Chinese macro-economy. In the past several years, his fields of interest include global financial crisis, foreign exchange reserves, cross-border capital flow, RMB's exchange rate and internationalization. He has produced 10 books, more than 80 academic papers, and numerous articles. Before joining IWEPI, he worked as an auditor in KPMG, and a PE fund manager in Asset Managers Group (Japan). He received his doctor's degree from the Graduate School of CASS.
