

# Mega Event Planning

Series Editor  
Eva Kassens-Noor  
Michigan State University  
East Lansing, MI, USA

The Mega Event Planning Pivot series will provide a global and cross-disciplinary view into the planning for the world's largest sporting, religious, cultural, and other transformative mega events. Examples include the Olympic Games, Soccer World Cups, Rugby championships, the Commonwealth Games, the Hajj, the World Youth Day, World Expositions, and parades. This series will critically discuss, analyze, and challenge the planning for these events in light of their legacies including the built environment, political structures, socio-economic systems, societal values, personal attitudes, and cultures.

## ACKNOWLEDGMENTS

We would like to thank everyone who made this project possible, particularly those who assisted by providing invaluable information that was critical to advancing this monograph. Our sincere thanks to personnel from the National Institute of Sport, the Ministry of Sport, and the Corporación Santiago 2014. Specifically, thanks to Patricio Sepúlveda Novoa, Marcelo Ubal Rodríguez, Ximena Restrepo Gaviria, Marcos Antonio Colina Barahona, and Carlos Marchat Laplagne. Similarly, we would like to thank Eva Kassens-Noor, editor of the *Mega Event Planning Pivot* series at Palgrave for trusting our idea and encouraging us to pursue this monograph. Also thanks to Joshua Pitt, Senior Commissioner Editor at Palgrave Macmillan, for his patience in accepting our numerous requests for extensions. Because some sections of this project required us to work in two languages, the editing process turned out to be extensive, lengthy, and at times monumental. It required from us not only substantial editorial work, but also a good dose of idiomatic judgment. Our sincere thanks to Gretchen Peterec, Paulina Bravo, and Steven Pope for reading and providing numerous comments for the original as well as translated versions of the manuscript. Any mistake that may have occurred as part of this process is solely our responsibility.
