7 Checks on Valuations	48
<i>References and Bibliography</i>	55
<i>Index</i>	57

Introduction and Acknowledgements

This book is intended as a guide to students of valuation and estate management and I also hope that it will be of some service to practitioners in those arts.

I am pleased to thank many people for their help: first the RICS for permission to quote from their copyright material *Guidance Notes*; to Charles Hardwick of Trent Polytechnic library without whose magnificent assistance I should not have finished the book; to my former colleagues at Trent Polytechnic; and finally with gratitude to my wife for encouragement and help beyond the call of duty.

Finally, as I write the 'Big Bang' of the Stock Exchange is taking place: I do not think that it will affect any of the matters mentioned in this book but time will tell, and the reader should be aware of this caveat.

Nottingham
