I INTRODUCTION

1	What Economics is About	1
1.1	The Economic Problem	1
1.2	The Scope of Economics	3
1.3	Positive Economics	3
1.4	Normative Economics	4
1.5	Conclusions	4
2	Methods of Allocating Resources	5
2.1	Functions of an Economic System	5
2.2	The Market Economy	5
2.3	The Command Economy	6
2.4	The Mixed Economy	6
2.5	Micro- and Macroeconomics	7

II WHAT TO PRODUCE

3	How Price is Formed in the Free Market	8
3.1	Value and Price	8
3.2	Markets	8

vi Contents

3.3	Forces Determining Price	10
3.4	Demand	10
3.5	Supply	11
3.6	The Determination of Price: Market Clearing	12
3.7	Changes in the Conditions of Demand and Supply	12
4	Applications of Demand and Supply Analysis	14
4.1	The Functions of Price in the Free Market	14
4.2	Further Applications	15
5	A Further Look at Demand	16
5.1	Why the Demand Curve Normally Slopes Downwards	16
5.2	Exceptional Demand Curves	18
5.3	Price Elasticity of Demand	18
5.4	Other Elasticities of Demand	20
 III HOW TO PRODUCE – THE THEORY OF PRODUCTION		
6	The Firm	21
6.1	The Role of the Firm	21
6.2	The Objectives of the Firm	22
6.3	The Decisions of the Firm	23
6.4	What to Produce	23
6.5	The Legal Form of the Firm and Raising the Necessary Capital	23
7	The Organisation and Scale of Production	27
7.1	The Division of Labour	27
7.2	The Advantages of Large-scale Production	28

7.3	The Size of Firms	29
7.4	The Predominance of the Small Firm	29
8	The Distribution of Goods to the Consumer	31
8.1	The Scope of Production	31
8.2	The Wholesaler	31
8.3	The Retailer	32
8.4	The Future of the Middleman	33
9	The Location of Production	35
9.1	The Advantages of Different Localities	35
9.2	The Level of Rents in Different Areas	35
9.3	Conclusions	35
10	Combining the Factors of Production	37
10.1	The Law of Diminishing Returns	37
10.2	The Optimum Combination of Variable Factors	38
11	Deciding on the Most Profitable Output	39
11.1	The Costs of Production	39
11.2	How Do Costs Behave as Output Expands?	40
11.3	Perfect Competition	41
11.4	The Short-period Equilibrium Output of the Firm under Perfect Competition	41
11.5	The Long-period Equilibrium of the Firm and Industry	42
12	The Supply Curve of the Industry Under Perfect Competition	45
12.1	Introduction	45
12.2	The Short Period	45

viii Contents

12.3	The Long Period	45
12.4	Elasticity of Supply	46
13	Rewarding the Factors of Production: the Marginal Productivity Theory of Distribution	48
13.1	Introduction	48
13.2	The Marginal Productivity Theory: Perfect Competition	48
13.3	The Determination of the Price of a Factor Service	49
13.4	Weaknesses of the Marginal Productivity Theory	50
 IV THE GOVERNMENT AND THE ALLOCATION OF RESOURCES		
14	Market Failure and the Role of Government	51
14.1	Efficiency in the Allocation of Resources	51
14.2	How Does Market Failure Arise?	52
14.3	The Economic Functions of Government: a Summary	53
14.4	The Value of 'Perfect Competition' Analysis	53
15	Monopoly	54
15.1	Imperfect Competition	54
15.2	What Do We Mean by 'Monopoly'?	55
15.3	Foundations of Monopoly Power	55
15.4	The Equilibrium Output of the Monopolist	56
15.5	Public Policy and Monopoly	57
15.6	Discriminating Monopoly	59

16	Imperfect Competition: Other Forms	60
16.1	Monopolistic Competition	60
16.2	Oligopoly	61
16.3	Pricing Policy in the Real World	61
17	Externalities and Cost-benefit Analysis	62
17.1	Externalities	62
17.2	Methods of Dealing with Externalities	62
17.3	Cost-benefit Analysis: Reasons for	63
17.4	Difficulties of CBA	63
17.5	Assessment of the Role of CBA	64
18	The Environment: Conservation and Pollution	65
18.1	The Environment as an Economic Good	65
18.2	Conservation	65
18.3	Maintaining the Stock of a Renewable Resource: Fish	66
18.4	Preserving a Non-renewable Resource: an Historic Building	66
18.5	Pollution	68
19	The Provision of Goods and Services by the Public Sector	71
19.1	The Case for Public Sector Provision	71
19.2	Accountability v. Economic Efficiency	72
19.3	The Problem of Assessing 'Needs'	72
19.4	Pricing Policy	72
19.5	The Nationalised Industries and Privatisation	73

V REWARDS TO THE DIFFERENT FACTORS OF PRODUCTION

20	Labour and Wages	76
20.1	The Nature of the Labour Force	76
20.2	Methods of Rewarding Labour	77
20.3	The Determination of the Wage Rate in a Particular Industry, Occupation or Locality	78
20.4	Trade Unions: the Process of Collective Bargaining	80
20.5	The Government and Wages	82
21	Capital and Interest	83
21.1	Capital	83
21.2	Interest	84
22	Land and Rent	85
22.1	'Land' and 'Rent' as General Terms	85
22.2	Economic Rent – Land and Rent to the Economist	85
23	Entrepreneurship and Profit	87
23.1	Entrepreneurship	87
23.2	Profit	87
23.3	The Role of Profit in a Market Economy	88

VI MONEY AND FINANCIAL INSTITUTIONS

24	Money and the Rate of Interest	89
24.1	The Functions of Money	89
24.2	The Demand for Money	90
24.3	The Supply of Money	91
24.4	The Rate of Interest	92

25	Financial Markets	95
25.1	The Provision of Liquid Capital	95
25.2	Money Markets	95
25.3	The Capital Market	96
25.4	The Stock Exchange	97
26	Clearing Banks	98
26.1	Types of Banks in the UK	98
26.2	The Creation of Credit	98
26.3	Bank Lending	99
26.4	Modification of the Cash Ratio Approach	99
26.5	The Effects of Recent Increased Competition	100
27	The Bank of England	101
27.1	Functions of the Bank of England	101
27.2	Principles of Monetary Control	102
27.3	Monetary Base Control	102
27.4	Rate of Interest Control: the Present System	103

VII THE GOVERNMENT AND STABILISATION POLICY

28	Measuring the Level of Activity: National Income Calculations	105
28.1	The Principle of National Income Calculations	105
28.2	National Income Calculations in Practice	106
28.3	Uses of National Income Statistics	107
28.4	Factors Determining a Country's Material Standard of Living	108

29	Unemployment	110
29.1	The Nature of Unemployment	110
29.2	The Causes of Unemployment	111
30	The Level of Output and Aggregate Demand: the Keynesian Explanation	112
30.1	The Link Between Spending and Production	112
30.2	Reasons for Changes in Aggregate Demand	113
30.3	Consumption Spending	114
30.4	Investment Spending	116
30.5	Equilibrium Through Changes in the Level of Income	119
30.6	The Effect of Changes in Consumption	119
30.7	Government Spending and Taxation	120
30.8	The Effect of Foreign Trade	122
30.9	Demand Management	122
31	Employment and the Price Level	125
31.1	Changes in the Approach to Full Employment	125
31.2	Aggregate Demand and Aggregate Supply	125
31.3	Full Employment and Demand Management	127
31.4	How the Government Can Manage AD	127
31.5	Supply-side Economics	128
31.6	Postscript	130
32	Inflation: Its Effects	131
32.1	Why Control Inflation?	131
32.2	A Note on Measuring Changes in the General Level of Prices	133

33	Policies to Achieve Price Stability	134
33.1	Causes of Inflation: a Simplified Statement	134
33.2	Monetarism	136
33.3	Policy Implications of Monetarist Theory	138
33.4	Concluding Observations	138
34	Economic Growth	139
34.1	The Nature of Growth	139
34.2	Achieving Growth	139
34.3	The Government and Growth	140
35	Balanced Regional Development	141
35.1	The Regional Problem	141
35.2	Government Policy	142
35.3	Inner City Regeneration	144
35.4	Regional Policy in the Context of the EC	144
35.5	Appraisal of Regional Policy	145
36	Public Finance	146
36.1	The Distribution of Income	146
36.2	Government Expenditure	146
36.3	The Modern Approach to Taxation	147
36.4	The Structure of Taxation	148
36.5	The Advantages and Disadvantages of Direct Taxes	149
36.6	The Advantages and Disadvantages of Indirect Taxes	150
36.7	The Incidence of Taxation	151

VIII INTERNATIONAL TRADE

37	The Nature of International Trade	152
37.1	Why International Trade?	152

xiv Contents

37.2	The Advantages of International Trade	153
37.3	The Terms of Trade	153
37.4	Free Trade and Protection	154
38	The Balance of Payments	157
38.1	Paying for Imports	157
38.2	The Balance of Payments	157
39	Foreign Exchange Rates	159
40	The Correction of a Balance of Payments Disequilibrium	161
40.1	Alternative Approaches	161
40.2	Reducing Expenditure on Imports: Deflation	161
40.3	Expenditure Switching: Depreciation of the Exchange Rate	163
40.4	Managed Flexibility	164
40.5	International Liquidity	165
41	The European Community	167
41.1	Background to the EC	167
41.2	Institutions of the EC	168
41.3	Economic Objectives of the EC	169
41.4	Advantages for the UK of Belonging to the EC	169
41.5	Problems Facing the UK as a Member of the EC	170
41.6	The Single Market: 1993	170
 IX LOOKING INTO THE FUTURE		
42	The Population of the UK	171
42.1	The Growth of Population	171

42.2	Implications of Changes in the Size of the Population	172
42.3	Age Distribution of the Population	173
42.4	The Industrial Distribution of the Working Population	173
42.5	The Geographical Distribution of the Population	174
43	Current Problems and Policies of the UK	176
43.1	Introduction	176
43.2	Inflation	176
43.3	The UK's Relationship with the EC	178
43.4	Balance of Payments Difficulties	178
43.5	Unemployment	179
43.6	Recent Developments	180

Preface

Many students, especially those studying part-time, have asked for a set of revision notes which will: (a) furnish in a 'nutshell' the ground covered by basic economic theory; (b) save time in summarising reading; (c) indicate interrelationships between the different topics; and (d) provide the essentials for pre-examination revision. This book should not be used as a 'crammer', but simply as a supplement to the conscientious study of a main text. While it follows closely Jack Harvey, *Modern Economics*, 6th edn (Macmillan), the subject matter is common to similar books.

The format has been chosen to make it possible to slip the book into an inside jacket pocket or handbag, making it more readily available for reading in the odd moments which might otherwise be wasted. Only essential diagrams are included, but the presentation with subheads and so on is designed to promote learning through a visual impact.

JACK HARVEY
