Preface

In accordance with the intentions behind the *Mastering Law* series, this book is intended as an introduction to the basic principles of company law. Like the other books in the series the book contains features designed to help those studying this subject for the first time. These include *casenotes* at the end of most chapters which give a short account of the facts and decisions in key cases. A number of points for further consideration are included in the *exercises* at the end of each chapter. In addition an attempt has been made to state the law in clear and simple terms. I hope it has succeeded.

JANET DINE

The publishers and authors are grateful to Butterworth Publishers London for the permission to reproduce material as casenotes taken from *Butterworth's Company Law Handbook*.
