ACKNOWLEDGEMENTS

Many people helped in the writing of this book, by giving ideas, advice, support and encouragement. Heather Roberts provided invaluable assistance by spending many Saturday afternoons reading chapters and offering constructive criticism. Others who read chapters were Arthur Rutherford, Judy Nixon, Dave Evans and Eva Garmonikow. The staff in the library at Langley College of Further Education were supportive and tolerant of my dependence on their services. Finally, I would like to acknowledge the encouragement I received from the many people who took an interest in the progress of this book.
