Work Out

Computer Studies

for First Examinations

The titles in this series

For First Examinations

Biology
Chemistry
Computer Studies
English Language
Mathematics
Physics
Principles of Accounts
Statistics

For examinations at Advanced Level

Applied Mathematics
Biology
Chemistry
Physics
Pure Mathematics
Statistics

For examinations at college level

Operational Research
Mathematics for Economists

Introduction	1
How to Use this Book	1
Revision	1
The Examination	2
Practical Assessment	2
1 Introduction to Computers	3
1.1 Introduction	3
1.2 Worked Examples – Some Basic Concepts	3
1.3 Exercises	17
1.4 Answers and Hints on Solutions	19
2 Representing Data	22
2.1 Introduction	22
2.2 Representing Numbers	22
2.3 Data Codes	32
2.4 Logic Gates and Truth Tables	35
2.5 Exercises	40
2.6 Answers and Hints on Solutions	42
3 Storage Systems	46
3.1 Requirements of a Storage System	46
3.2 Classification of Computer Storage	46
3.3 Main Memory	48
3.4 Backing Storage	51
3.5 Exercises	64
3.6 Answers and Hints on Solutions	66
4 Data Input Methods, Media and Devices	69
4.1 Aims of Data Collection	69
4.2 Problems of Collecting Data	69
4.3 The Main Methods of Data Input	70
4.4 Forms and Dialogue Design	71
4.5 Data Verification and Validation	73
4.6 Coding	76
4.7 Input Media and Devices	78
4.8 Exercises	92
4.9 Answers and Hints on Solutions	95
5 Output Methods, Media and Devices	101
5.1 Introduction	101
5.2 Printed Output	101

5.3	Terminals	107
5.4	Computer Output on Microfilm (COM)	110
5.5	Speech Output	112
5.6	Direct Output to Other Devices	113
5.7	Exercises	113
5.8	Answers and Hints on Solutions	115
6	Data Structures	118
6.1	Introduction	118
6.2	Files, Records and Fields	118
6.3	Tables and Arrays	119
6.4	Databases	121
6.5	Types of File	124
6.6	Organisation of Files	125
6.7	Storage Size Estimation	128
6.8	Worked Example—Payroll	129
6.9	File Security	133
6.10	Exercises	134
6.11	Answers and Hints on Solutions	137
7	Data Communications	144
7.1	Introduction	144
7.2	Applications of Data Communications	144
7.3	Components of a Datacomm System	147
7.4	Computer Networks	151
7.5	Local Area Networks (LANs)	153
7.6	Videotex—Viewdata and Teletext	156
7.7	Electronic Mail	159
7.8	Exercises	161
7.9	Answers and Hints on Solutions	162
8	Software Systems	168
8.1	Introduction	168
8.2	System Software	168
8.3	Application Software	173
8.4	Programming Languages	174
8.5	Exercises	184
8.6	Answers and Hints on Solutions	186
9	The Programming Task	190
9.1	Introduction	190
9.2	Steps in Programming	190
9.3	Structured Program Design	192
9.4	Writing the Instructions in a Programming Language – Coding	197
9.5	Testing and Debugging the Program	199
9.6	Exercises	202
9.7	Answers and Hints on Solutions	203
10	Program Writing in BASIC	206
10.1	Introduction	206
10.2	The BASIC Language	206
10.3	Worked Example – Gas Bill	211
10.4	Subprograms	213
10.5	Arrays	215
10.6	Common Methods of Sorting	216

10.7	Simple File Handling	217
10.8	Exercises	217
10.9	Answers and Hints on Solutions	221
11	Computer Applications	230
11.1	Introduction	230
11.2	Worked Example – A Doctors’ Surgery	230
11.3	Worked Example – The Electronic Office	234
11.4	Driver and Vehicle Licensing Centre (DVLC) Swansea	238
11.5	Banking	241
11.6	Exercises	242
11.7	Answers and Hints on Solutions	245
12	An Introduction to Systems Analysis	251
12.1	What is a System?	251
12.2	An Approach to Systems Analysis	252
12.3	Stages of Systems Analysis	252
12.4	Worked Examples – Supermarket	259
12.5	Choosing a Computer System	260
12.6	Exercises	261
12.7	Answers and Hints on Solutions	263
13	Computers and Society	266
13.1	Introduction	266
Part 1: Computers and Society		
13.2	Effects on Employment	266
13.3	Data Privacy	268
13.4	Data Banks	269
13.5	Data Security	269
Part 2: People in Computing		
13.6	Organisation of a Computer Department	270
13.7	Computer Managers	271
13.8	Systems Analysts and Programmers	272
13.9	Computer Operating Staff	274
13.10	Data Preparation and Data Control Staff	275
13.11	Computer Bureaux	277
13.12	Exercises	278
13.13	Answers and Hints on solutions	279
14	Project Work	281
14.1	Introduction	281
14.2	What Project?	281
14.3	Some Hints to Help you Pass	281
14.4	Programming Projects	282
14.5	Problem-solving Using Existing Software	284
14.6	Case Studies	285
14.7	Worked Example – Case Study	285
14.8	Ideas for Projects	288
Index		293

Acknowledgements

The author and publishers wish to thank the following who have kindly given permission for the use of copyright material:

The Associated Examining Board, the Southern Universities' Joint Board, the University of London School Examinations Board and the University of Oxford Delegacy of Local Examinations for questions from past examination papers.

The Economist Newspaper Limited for extract from *The Economist Science Brief*, 22 August 1981 issue.

The Trustee Savings Bank (TSB England & Wales) for reproduction of a TSB cheque.

Every effort has been made to trace all the copyright holders but if any have been inadvertently overlooked the publishers will be pleased to make the necessary arrangement at the first opportunity.

Thanks to John Muir and Ray Webster, lecturers at Ealing College of Higher Education, for letting me use their exercises and hand-outs.

Help on business computer systems was given by Malcolm Moran (Wang Systems), Alan Weaver (*The Economist*) and Mike Crane (Nixdorf Computers).

I am also indebted to Jane Coton, Pam Bancroft, Anne Spinoza and Shirley Hunt for the word processing.

Front cover photograph taken by Alan Thomas.

The University of London Entrance and School Examinations Council accepts no responsibility whatsoever for the accuracy or method in the answers given in this book to actual questions set by the London Board.

Acknowledgement is made to the Southern Universities' Joint Board for School Examinations for permission to use questions taken from their past papers but the Board is in no way responsible for answers that may be provided and they are solely the responsibility of the authors.

The Associated Examining Board and the University of Oxford Delegacy of Local Examinations wish to point out that worked examples included in the text are entirely the responsibility of the author and have neither been provided nor approved by the Board.
