CONTEMPORARY SOCIAL THEORY

General Editor: ANTHONY GIDDENS

This series aims to create a forum for debate between different theoretical and philosophical traditions in the social sciences. As well as covering broad schools of thought, the series will also concentrate upon the work of particular thinkers whose ideas have had a major impact on social science (these books appear under the sub-series title of 'Theoretical Traditions in the Social Sciences'). The series is not limited to abstract theoretical discussion – it will also include more substantive works on contemporary capitalism, the state, politics and other subject areas.

Acknowledgements

My initial debt, of course, is to Anthony Giddens. I first became acquainted with him during my informal participation in a series of seminars he conducted on issues arising from his early work in structuration theory at Cambridge during 1976. Notwithstanding the uncommon talent and theoretical acumen he brought to these seminars, I was equally impressed by his tolerance and respect for the views of others. I mention this not simply to draw attention to these virtues, although tolerance and respect indeed are virtues often in short supply in contemporary academic life. I mention it, rather, because Tony Giddens is the general editor of the series in which this book appears, and during the course of my writing it he has consistently remained tolerant of certain unavoidable delays, and respectful of my autonomy as an author, even as I addressed myself to ideas that originate in his work.

I would like to acknowledge Adrian Hayes, Susan Hekman, Jeff Livesay, Chris Prendergast, David Sciulli, and Jon Turner for their encouragement and for their critical comments on various chapters. I am indebted to Malcolm Willison, George Theodorson, and especially Joe Elder, for encouragement and assistance of a different, but no less important, kind. The Research Council of Rutgers University provided financial assistance during the period in which this book was written.

My greatest debt is to Reggie Feiner Cohen for her encouragement and patience, and especially for her support. She will understand when I say that this book truly is 'our everyday thing'.
