Preface

This volume was originally intended to appear as a second edition of *The Origins of the Second World War* edited by Esmonde Robertson. As the first edition is now seen as something of a classic in the debate about the Second World War, we have decided to bring out this volume of essays as a new book, as indeed it is a completely new collection of essays by different authors on different subjects. *The Origins of the Second World War* will continue to be kept in print, and this new volume has been given the title *Paths to War: New Essays on the Origins of the Second World War*.

ROBERT BOYCE
