

# FISCAL PROBLEMS IN THE SINGLE-MARKET EUROPE

## CENTRAL ISSUES IN CONTEMPORARY ECONOMIC THEORY AND POLICY

General Editor: **Mario Baldassarri**, *Professor of Economics, University of Rome 'La Sapienza', Italy*

This major series is a joint initiative between Macmillan, St. Martin's Press and SIPI, the publishing company of Confindustria (the Confederation of Italian Industry), based on the book collection MONOGRAFIERPE published by SIPI and originated from the new editorial programme of one of the oldest Italian journals of economics, the *Rivista di Politica Economica*, founded in 1911. This series is intended to become an arena in which the most topical economic problems are freely debated and confronted with different scientific orientations and/or political theories.
