Acknowledgements

The authors have drawn on some parts of earlier works and have reproduced a few passages verbatim (Brugger 1981 a and b; Brugger 1971). In all cases we are grateful to the publishers (International Thompson Publishing Services and UNESCO) who have given their permission for direct quotation. Thanks also are due to Professor Ted Wolfers and the staff of the Department of History and Politics at the University of Wollongong for making time available for one of the authors. We are, of course, grateful for the contributions from students at the Flinders University of South Australia to whom a draft text was directed. For constructive comments, thanks are due also to Tony Saich, Yvonne Corcoran-Nantes and Noel Tracy. For editorial work, thanks go to David Jolley. For much wider support, particular thanks go to Suzanne Brugger and Rosemary Reglar.
