Every effort has been made to trace all the copyright holders but if any have been inadvertently overlooked the publishers will be pleased to make the necessary arrangement at the first opportunity.

Above all, this book would not have been possible without the extremely efficient and timely help of Clare Argent, a Cranfield MBA. Her attention to detail kept us both on the rails throughout the production of the book. Furthermore, her insight, vision and continuous advice helped turn what may have been an adequate book into what we believe is now a very good one.
