2 The Economics of Robinson Crusoe	31	Choices over Many Periods	76
Production Technology	31	Shifts in the Schedule for Labour's Marginal Product	79
Tastes for Consumption and Leisure	33	Money and Households' Budget Constraints	80
Deciding How Much to Work	37	Summary	82
Shifts in the Production Function	38	5 The Basic Market-Clearing Model	85
Wealth Effects	39	Aggregate-Consistency Conditions and the Clearing of Markets	85
Substitution Effects for Work Versus Consumption	41	Clearing the Commodity Market	87
Combining the Wealth and Substitution Effects	43	The Quantity of Money Equals the Quantity Demanded	90
Summary	44	General Market Clearing	90
3 The Basic Budget Constraint and the Demand for Money	49	Supply Shocks	91
The Commodity Market	49	Changes in the Stock of Money	97
The Credit Market	50	Changes in the Demand for Money	99
The Budget Constraint	51	Summary	100
The Nature of a Monetary Economy	52	6 The Labour Market	105
A Model of Optimal Cash Management	54	Setup of the Labour Market	105
The Velocity of Money	60	The Demand for Labour	106
Empirical Evidence on the Demand for Money	62	Labour Supply and Consumption Demand	107
Summary	63	Clearing of the Labour Market	109
		Clearing of the Commodity Market	110

The Behaviour of the Real Wage Rate	111	The Central Bank	183
Nominal Wage Rates	114	Effects of Central Bank Actions	191
The Labour Market in the Macroeconomic Model	114	Summary	195
Summary	114	11 International Monetary Linkages	199
7 World Markets in Goods and Credit	117	Different Monies and Exchange Rates	199
One Currency World	118	Arbitrage in Goods and Services: Purchasing-Power Parity	202
International Borrowing and Lending	118	Arbitrage in Assets: Interest-Rate Parity	206
The Role of the International Credit Market	121	Flexible Exchange Rates	210
The Terms of Trade	124	Fixed Exchange Rates	212
Summary	134	The European Monetary System	216
8 An Introduction to Inflation and Interest Rates	137	Purchasing-Power Parity under Flexible and Fixed Exchange Rates	220
Cross-Country Data on Inflation and Monetary Growth	137	Exchange Rates and the Current-Account Balance	223
Time Series Data on Inflation and Monetary Growth	140	Summary	224
Actual and Expected Inflation	142	12 Investment and Real Business Cycles	229
Real and Nominal Interest Rates	142	The Capital Stock and Investment in the G-6	229
Summary	150	Real GNP and its Components during Recessions	233
9 Money, Inflation, and Interest Rates in the Market-Clearing Model	155	Capital in the Production Function	234
Incorporation of Inflation and Monetary Growth into the Model	155	Investment Goods and Consumer Goods	235
Market-Clearing Conditions	158	Depreciation	235
The Superneutrality of Money	158	Characteristics of Existing Capital	236
Monetary Growth, Inflation, and the Nominal Interest Rate	158	Investment Demand	236
The Dynamics of Inflation	163	Investment and Households' Budget Constraints	239
Real Effects of Inflation	166	Clearing of the Commodity Market in a Closed Economy	241
Summary	168	Real Business Cycles	242
10 Financial Intermediation	173	Saving and Investment in an Open Economy	247
Checkable Deposits and M1	173	Summary	248
Financial Intermediaries and the Credit Market	174	13 Unemployment	253
		A Model of Job Finding	254
		Job Separations	255
		Job Separations, Job Finding, and the Natural Unemployment Rate	257

The Behaviour of Unemployment Rates in the G-6	260	17 The Public Debt	343
Employment and Unemployment during Recessions	269	Public Debt in the Long Run: The Historical Behaviour of Public Debt in the United Kingdom and in the United States	343
Summary	275	Characteristics of Government Bonds	345
