The Education and Counseling Process for Potential Donors and Donor Attitudes after Living Kidney Donation <i>Robert W. Steiner, M.D. and Christine A. Frederici, L.C.S.W.</i>	129
Chapter Eight	
Attitudes, Practices, and Ethical Positions among Transplant Centers Concerning Living Kidney Donor Selection <i>Aaron Spital, M.D.</i>	141
Index	157

Foreword

This book is intended to provide information and policy and procedure suggestions for centers that perform living donor kidney transplantation. Its purpose is not to argue either for kidney donation for any candidate or against donation for most candidates, but rather to help make the donation process well considered regardless of individual decisions. We look forward to an ongoing effort that will improve and expand the offerings in this volume, to promote defensible kidney donor education, evaluation, and selection.
