Problem	252
Solution	252
How It Works	253
The Code.....	254
Usage	257
■ Chapter 8: Isolated Storage.....	261
8-1. Saving a File in Isolated Storage and Loading It	261
Problem	261
Solution	262
How It Works	262
The Code.....	263
Usage	265
8-2. Saving Serialized Data	268
Problem	268
Solution	269
How It Works	269
The Code.....	269
Usage	271

8-3. Modifying Settings of Your Application	271
Problem	271
Solution	271
How It Works	271
The Code.....	271
Usage	275
8-4. Saving a Photo in Isolated Storage	275
Problem	275
Solution	275
How It Works	275
The Code.....	275
Usage	281
■ Chapter 9: In the Cloud	285
9-1. Interacting with WCF.....	285
Problem	285
Solution	285
How It Works	285
The Code.....	286
Usage	291
9-2. Creating a Feed Reader.....	291
Problem	291
Solution	291
How It Works	291
The Code.....	292
Usage	299
9-3. Creating a Google API–Based Translator.....	299
Problem	299
Solution	299
How It Works	299

The Code.....	299
Usage.....	302
9-4. Pushing Your Notification.....	302
Problem	302
Solution	303
How It Works	303
The Code.....	307
Usage.....	315
Chapter 10: Testing Windows Phone Applications	317
10-1. Implementing MVVM on Windows Phone by Using MVVMLight.....	318
Problem	318
Solution	318
How It Works	318
The Code.....	320
Usage.....	329
10-2. Using MVVM and Performing Unit Testing.....	330
Problem	330
Solution	330
How It Works	330
The Code.....	330
Usage.....	333
Index.....	335

About the Authors

■ **Fabio Claudio Ferracchiati** is a prolific writer and technical reviewer on cutting-edge technologies. He has contributed to many books on .NET, C#, Visual Basic, SQL Server, Silverlight, and ASP.NET. He is a .NET Microsoft Certified Solution Developer (MCSD) and lives in Rome, Italy. He is employed by Brain Force.

■ **Emanuele Garofalo** was born at Torre del Greco (Naples), Italy and now lives in Rome. He is an active member of the DotNetCampania community, and works with Windows Presentation Foundation (WPF), Silverlight, Windows Communication Foundation (WCF), and Language Integrated Query (LINQ) as principal technologies.

About the Technical Reviewer

■ **Simona Nasetti** is an expert Microsoft Dynamics CRM and Microsoft SQL Server Business Intelligence consultant. She graduated with a mathematics degree and works at Agic Technology (www.agic.it) in Rome, Italy, where she creates vertical solutions and reports for the company's clients.

Acknowledgments

First of all, I'd like to thank Ewan Buckingham. During these years we had working experiences together and he has been always patient, kind, and helpful. I'd also like to thank Emanuele for the great job he did working with me to complete this book. Moreover, the Apress guys, each of you have been great. So, thanks to Jessica Belanger, Dominic Shakeshaft, Christine Ricketts, and Sharon Wilkey. Finally, my wife Simona for her efforts especially trying to quiet my daughter's screams while I was writing the book. Wait, thanks to V's authors, they distract me with very cool episodes.

Fabio Claudio Ferracchiati

Thanks to Alessandra for her patience during the writing of this book, to Fabio for the opportunity to write this book, to Ewan, Jessica, Sharon and all the staff of Apress for their support, and to Michele Aponte and all the DotNetCampania community for the motivation to study new technologies with the spirit of knowledge-sharing.

Emanuele Garofalo

About This Book

Are you interested in Windows Phone 7 configuration and development? Learn to build, configure, and distribute your applications through a wide variety of step-by-step recipes. This book contains extensive code samples and detailed walk-throughs.
