

Part II

Review of Electrification Experiences with Emphasis on Off-grid Access Systems

This part reviews the global rural electrification experience by focusing on South Asia, China, Sub-Saharan Africa, and the rest of the world. The developments in terms of off-grid electricity access are also highlighted. This part contains four chapters. [Chapter 4](#) presents the South Asian case, [Chapter 5](#) focuses on China, [Chapter 6](#) deals with Sub-Saharan Africa and finally [Chapter 7](#) covers South East Asia and the Latin American experience. Each chapter considers the status, technology choices, organisational and governance aspects as well as initiatives for off-grid access. Each chapter also highlights the lessons for others or lessons that can be learnt from others.
