Recent Volumes in this Series

- Volume 14 **THE BIOSALINE CONCEPT**
An Approach to the Utilization of Underexploited Resources
Edited by Alexander Hollaender, James C. Ailer, Emanuel Epstein,
Anthony San Pietro, and Oskar R. Zaborsky
- Volume 15 **APPLICATION OF SHORT-TERM BIOASSAYS IN THE FRACTIONATION
AND ANALYSIS OF COMPLEX ENVIRONMENTAL MIXTURES**
Edited by Michael D. Waters, Stephen Nesnow, Joellen L. Huisingsh,
Shahbeg S. Sandhu, and Larry Claxton
- Volume 16 **HYDROCARBONS AND HALOGENATED HYDROCARBONS IN THE
AQUATIC ENVIRONMENT**
Edited by B. K. Afghan, D. Mackay, H. E. Braun,
A. S. Y. Chau, J. Lawrence, O. Meresz, J. R. W. Miles,
R. C. Pierce, G. A. V. Rees, R. E. White, and D. T. Williams
- Volume 17 **POLLUTED RAIN**
Edited by Taft Y. Toribara, Morton W. Miller, and Paul E. Morrow
- Volume 18 **ENVIRONMENTAL EDUCATION: Principles, Methods, and Applications**
Edited by Trilochan S. Bakshi and Zev Naveh
- Volume 19 **PRIMARY PRODUCTIVITY IN THE SEA**
Edited by Paul G. Falkowski
- Volume 20 **THE WATER ENVIRONMENT: Algal Toxins and Health**
Edited by Wayne W. Carmichael
- Volume 21 **MEASUREMENT OF RISKS**
Edited by George G. Berg and H. David Maillie

Continuation Order Plan is available for this series. A continuation order will bring delivery of each new volume immediately upon publication. Volumes are billed only upon actual shipment. For further information please contact the publisher.

Measurement of Risks

Edited by

George G. Berg and H. David Maillie

Library of Congress Cataloging in Publication Data

Rochester International Conference on Environmental Toxicity (13th : 1980 :
University of Rochester) Measurement of risks.

(Environmental science research ; v. 21)

Proceedings of the Thirteenth Rochester International Conference on Environmental Toxicity held June 2-4, 1980, at the University of Rochester, Rochester, N. Y.

Includes bibliographical references and index.

1. Environmental health—Evaluation—Congresses. 2. Environmental health—Statistical methods—Congresses. 3. Environmentally induced diseases—Congresses.

I. Berg, George G., 1919- II. Maillie, H. David. III. Title. IV. Series.
[DNLN: 1. Probability—Congresses. 2. Environmental exposure—Congresses. 3. Environmental pollutants—Toxicity—Congresses. W L EN986F v. 21 / WA 671 159 1980m]

ACKNOWLEDGEMENT

We gratefully acknowledge the support provided for this conference by the U.S. Department of Energy, Environmental Protection Agency, Nuclear Regulatory Commission, and Department of Health, Education and Welfare (including the National Institute of Occupational Safety and Health, the National Institute of Environmental Health Sciences, the F.D.A. Bureau of Drugs and the N.I.H. Fogarty International Center), and by the University of Rochester.

We are especially indebted to Dorris Nash for efficient administrative and secretarial service in preparation for and support of the conference, to Florence Marsden for assistance during the conference, and to Rose Gering for her high-quality typing of the discussion sections.

CONTENTS

INTRODUCTION

The risks of measuring risk 3
George G. Berg

SESSION I: STATISTICAL INFERENCE OF RISKS

Introduction 11
Robert W. Kates, Chairman

The proper interpretation of significance tests in
risk assessment 13
Stephen Spielman

Remarks on sequential designs in risk assessment 29
Teddy I. Seidenfeld

Epidemiologic studies of toxic response -
significance requirements 49
H. Michael D. Utidjian

Biological models in epidemiology: radiation
carcinogenesis 71
Charles E. Land

SESSION II: RISKS OF PRENATAL EXPOSURES

Introduction 109
Arthur C. Upton, Chairman

Dose-response relationships for adult and prenatal exposures to methylmercury	111
Thomas W. Clarkson*, Christopher Cox, David O. Marsh, Gary J. Myers, Sadoun K. Al-Tikriti, Laman Amin-Zaki, and Abdul Ruzak Dabbagh	
Risk factors for deficits in early cognitive development	131
Sarah H. Broman	
Utilization of critical periods during development to study the effects of low levels of environmental agents	143
Liane B. Russell	
Epidemiologic studies of environmental exposures in human reproduction	163
Zena Stein*, Jennie Kline, Bruce Levin, Mervyn Susser and Dorothy Warburton	
SESSION III: RISKS OF CONTAMINATED AIR AND DRINKING WATER	
Introduction	191
Paul E. Morrow, Chairman	
Health risks of lead as judged from autopsy material	193
M.D. Krailo, K.S. Brown, W.H. Cherry and W.F. Forbes*	
Use of tests of pulmonary function to measure effect of air pollutants	211
B.G. Ferris, Jr.*, F.E. Speizer and J.H. Ware	
Experimental evaluation of air pollutants in humans as a basis for estimating risk	231
Jack D. Hackney* and William S. Linn	
Problems and possibilities of determining the carcinogenic potency of inhalable fibrous dusts and polycyclic aromatic hydrocarbons	253
Frederich Pott*, Rene Tomingas and Johann Koenig	

SESSION IV: COMPARATIVE RISKS OF ENERGY SOURCES

Introduction 283
 Philippe F. Bourdeau, Chairman

Some probabilistic aspects of safety assessment 285
 William A. Thompson, Jr.

What is the total risk of energy systems? 295
 Herbert Inhaber

Have the nuclear power risk assessors failed? 321
 Leonard A. Sagan

SESSION V: GENETIC AND CANCER HAZARDS

Introduction 345
 Sir Edward E. Pochin, Chairman

Cytogenetic bases for risk inference 347
 Michael A. Bender

Problems and solutions in the estimation of genetic risks from radiation and chemicals 361
 William L. Russell

Evaluation of genetic risks 385
 James F. Crow* and Carter Denniston

SESSION VI: EXTRAPOLATION TO LOW DOSES

Introduction 411
 Alvin M. Weinberg, Co-Chairman

Extrapolation from long term low dose animal studies - I. Review** 415
 Morris F. Crammer

Extrapolation from long term low dose animal studies -II. The ED ₀₁ study	443
Morris F. Cranmer	
The shapes of the radiation dose - mutation response curves in <u>Drosophila</u> : mechanisms and implications	477
Seymour Abrahamson*, H.U. Meyer and C. DeJongh	
The cancer risk from low level radiation	497
Bernard L. Cohen	
A simple threshold model for the classical bioassay problem**	521
William A. Thompson, Jr.* and R.E. Funderlic	
A biological basis for the linear non-threshold dose - response relationship for low-level carcinogen response	535
Roy E. Albert	
Participants	545
Index	547

*In chapters with multiple authors, the participant in the Conference is identified with an asterisk.

**Two papers in this section present expanded versions of parts of Conference reports and are consequently not followed by discussion.
