He has been programming and teaching how to program with Android, Perl, PHP, Java, VB, Python, C/C++, and MySQL for more than 20 years.

He holds a Master of Science degree in Computing Science from the University of Salerno, Italy. He has worked as a Project Manager, Software Engineer, Research Engineer, Chief Security Architect, Information Security Manager, PCI/SCADA Auditor, and Senior Lead IT Security/Cloud/SCADA Architect for many years.

His technical skills include Security, Android, Cloud, Java, MySQL, Drupal, Cobol, Perl, Web and Mobile development, MongoDB, D3, Joomla, Couchbase, C/C++, WebGL, Python, Pro Rails, Django CMS, Jekyll, Scratch, etc.

He currently works as Chief Information Security Officer (CISO) for Cargotec Oyj. He worked as visiting lecturer and supervisor for exercises at the Networking Laboratory of the Helsinki University of Technology (Aalto University). He holds four international patents (PKI, SIP, SAML, and Proxy areas). Massimo has reviewed more than 40 IT books for different publishing companies and he is the coauthor of *Pro Android Games* (Apress, 2015).

Acknowledgments

Thank you to everyone at Apress for the opportunity to write this book, including but not limited to Gwenan Spearing, Melissa Maldonado, and Nancy Chen, with a special thanks to Ed Liberman for introducing me to the folks here. I've enjoyed working with everyone. I'd also like to thank my family for their support. My daughter and her family are my rock and foundation. My roommate and her family are my local support and go out of their way to make sure I'm able to work when I need to. Of course, I'd like to thank my agent at Studio B Literary Agency, Stacey Czarnowski, who is always looking out for me and my best interests.
