Physiology in Health and Disease

This book series is published on behalf of the American Physiological Society (APS) by Springer. Access to APS books published with Springer is free to APS members.

APS publishes three book series in partnership with Springer: *Physiology in Health and Disease* (formerly *Clinical Physiology*), *Methods in Physiology*, and *Perspectives in Physiology* (formerly *People and Ideas*), as well as general titles.

Contents

1	The Physiology of Exercise in Spinal Cord Injury (SCI): An Overview of the Limitations and Adaptations	1
	Hannah W. Mercier and J. Andrew Taylor	
2	Physiology of Motor Deficits and the Potential of Motor Recovery After a Spinal Cord Injury	13
	V. Reggie Edgerton and Roland R. Roy	
3	Role of Activity in Defining Metabolic and Contractile Adaptations After SCI	37
	Gaelle Deley	
4	Respiratory System Responses to Exercise in Spinal Cord Injury . . .	51
	Christopher R. West, Andrew W. Sheel, and Lee M. Romer	
5	Alterations in Cardiac Electrophysiology After Spinal Cord Injury and Implications for Exercise	77
	Heidi L. Lujan and Stephen E. DiCarlo	
6	Cardiovascular Responses to Exercise in Spinal Cord Injury	105
	Thomas J. Barton, David A. Low, and Dick H.J. Thijssen	
7	Thermoregulatory Considerations for the Performance of Exercise in SCI	127
	Christopher T. Minson and Vienna E. Brunt	
8	Increased Bone Fracture After SCI: Can Exercise Reduce Risk? . . .	161
	Adina E. Draghici and Sandra J. Shefelbine	
9	Alterations in Body Composition After SCI and the Mitigating Role of Exercise	175
	David R. Gater and Gary J. Farkas	

10 Cardiometabolic Syndrome in SCI: The Role of Physical Deconditioning and Evidence-Based Countermeasures 199
Jennifer L. Maher, David W. McMillan, and Mark S. Nash

11 The Effect of Acute and Chronic Exercise on Inflammatory Markers in SCI 217
Christof A. Leicht and Nicolette C. Bishop

12 Role of Exercise in Alleviating Chronic Pain in SCI 233
Thomas N. Bryce

13 Autonomic Alterations After SCI: Implications for Exercise Performance 243
Aaron A. Phillips and Andrei V. Krassioukov

14 Hybrid Functional Electrical Stimulation Exercise for Improved Cardiorespiratory Fitness in SCI 269
Shuang Qiu and J. Andrew Taylor
