Preface

This book provides coverage of a broad range of topics in the field of vascular surgery to residents, registrars in training, and to recent graduates of training programs. The book is meant to be a practical rendition of the basic knowledge and clinical management required for optimal care of vascular surgical patients. Each chapter contains input from specialists in vascular surgery from the United States and Great Britain. There are up-to-date perspectives on common clinical conditions and emerging techniques encountered by vascular surgeons from both an American and British perspective. The chapters are organized under broad topics including medical management, noninvasive and invasive diagnostic approaches, perioperative care, indications and approaches for vascular procedures, and a discussion of newer endovascular techniques. The information contained in this text is not meant to be exhaustive, but rather a practical overview that will be useful in directing the management of patients with vascular diseases. The information in this text is also meant to be useful for certification examinations and recent graduates of vascular surgical training programs can utilize this text as an update of the most important vascular topics.

Colleen M. Brophy

Contents

| | |
|--|----|
| Preface | v |
| Contributors | ix |
| | |
| 1. The Epidemiology and Etiology of Atherosclerosis <i>Paul B. Kreienberg, R. Clement Darling III, and F.G.R. Fowkes</i> | 1 |
| 2. Clinical Evaluation of Patients with Vascular Disease <i>William G. Tennant</i> | 9 |
| 3. Noninvasive Vascular Examination <i>Colleen M. Brophy</i> | 19 |
| 4. Radiological Investigations <i>Steven M. Thomas, Kong T. Tan, and Mark F. Fillingner</i> | 25 |
| 5. Bleeding and Clotting Disorders <i>Vivienne J. Halpern and Frank C.T. Smith</i> | 39 |
| 6. Medical Management of Peripheral Arterial Disease <i>Jill J.F. Belch and Andrew H. Muir</i> | 53 |
| 7. Anesthesia for Vascular Surgery <i>Jamal J. Hoballah and Farid Moulla</i> | 65 |
| 8. Nonatherosclerotic Vascular Disease <i>Jonathan R.B. Hutt and Alun H. Davies</i> | 73 |
| 9. Lower Limb Ischemia <i>Rajabrata Sarkar and Alun H. Davies</i> | 91 |

| | |
|--|-----|
| 10. Chronic Venous Insufficiency, Varicose Veins, Lymphedema, and Arteriovenous Fistulas <i>Andrew W. Bradbury and Peter J. Pappas</i> | 105 |
| 11. Vascular Trauma <i>Kathleen J. Ozsvath, R. Clement Darling III, Laila Tabatabai, Sacha Hamdani, Alun H. Davies, and Meryl Davis</i> | 125 |
| 12. Complications in Vascular Surgery <i>Jeremy S. Crane, Nicholas J.W. Cheshire, and Gilbert R. Upchurch, Jr.</i> | 133 |
| 13. Vascular Access <i>David C. Mitchell and C. Keith Ozaki</i> | 141 |
| 14. Outcome Measures in Vascular Surgery <i>Christopher J. Kwolek and Alun H. Davies</i> | 149 |
| 15. Carotid Artery Disease <i>A. Ross Naylor, Peter H. Lin, and Elliot L. Chaikof</i> | 155 |
| 16. Arch Vessel, Vertebrobasilar, and Upper Extremity <i>Eva M. Rzucidlo and A. Ross Naylor</i> | 181 |
| 17. Aneurysmal Disease <i>Philip Davey and Michael G. Wyatt</i> | 191 |
| 18. Renovascular Hypertension and Ischemic Nephropathy <i>Sherry D. Scovell</i> | 221 |
| 19. Visceral Ischemic Syndromes <i>George Geroulakos, Peter A. Robless, and William L. Smead</i> | 231 |
| 20. Endovascular Approaches and Techniques <i>Steven M. Thomas, Kong T. Tan, and Mark F. Fillinger</i> | 237 |
| Index | 253 |
