

SpringerBriefs in Geography

SpringerBriefs in Geography presents concise summaries of cutting-edge research and practical applications across the fields of physical, environmental and human geography. It publishes compact refereed monographs under the editorial supervision of an international advisory board with the aim to publish 8 to 12 weeks after acceptance. Volumes are compact, 50 to 125 pages, with a clear focus. The series covers a range of content from professional to academic such as: timely reports of state-of-the art analytical techniques, bridges between new research results, snapshots of hot and/or emerging topics, elaborated thesis, literature reviews, and in-depth case studies.

The scope of the series spans the entire field of geography, with a view to significantly advance research. The character of the series is international and multidisciplinary and will include research areas such as: GIS/cartography, remote sensing, geographical education, geospatial analysis, techniques and modeling, landscape/regional and urban planning, economic geography, housing and the built environment, and quantitative geography. Volumes in this series may analyze past, present and/or future trends, as well as their determinants and consequences. Both solicited and unsolicited manuscripts are considered for publication in this series.

SpringerBriefs in Geography will be of interest to a wide range of individuals with interests in physical, environmental and human geography as well as for researchers from allied disciplines.

Contents

1	Introduction	1
1.1	Research Design	4
1.2	Summary of Flood Events	5
1.3	Research Methods	9
1.3.1	Cognitive Mapping	9
1.3.2	Questionnaire Survey	10
1.3.3	Online Risk Communication	12
1.3.4	Analysis of Land-Use Planning Documents	13
	References	14
2	The Course of Floods in the Study Areas and Their Consequences	17
2.1	Flood in July 1997	17
2.2	Flood in July 2001	20
2.3	Flood in June 2009	22
2.4	Flood in May and June 2010	24
2.5	Flood in August 2010	31
2.6	Flood in July 2012	34
2.7	Floods in 2014	37
	References	38
3	Changeability of the Spatial Image of Flood Over Time	43
3.1	The Case of Bieruń	44
3.2	The Case of Czarna	47
3.3	The Case of Wojcieszów	52
	References	59
4	Social Vulnerability as a Factor in Flood Preparedness	61
4.1	The Concept of Social Vulnerability	61
4.2	Social Vulnerability Drivers	65
4.3	Social Vulnerability as a Factor of Flood Preparedness	69
	References	86

5 Online Flood Risk Communication	91
5.1 Information and Educational Content Published on Websites of National and Regional Institutions Engaged in Flood Prevention Activities	93
5.1.1 Assessment of the Activity of Selected Institutions	95
5.2 Online Visibility of Information About Scientific Developments and Research	99
5.3 Degree to Which School Textbooks are Supported by Online Contents	100
5.4 Dissemination of Flood Risk Information via Municipalities’ Websites	101
5.5 Videos Posted on YouTube—A Virtual, Public ‘Archive’ of Local Floods	106
References	111
6 Planning Documents as a Source of Information About Flood Risk	115
6.1 Flood Hazard in Land-Use Planning Documents	115
6.2 Legal Aspects of Floodplain Management in Poland	119
References	121
7 Discussion and Conclusions	127
