*My thanks go to David S. Alberts, with whom I have worked throughout my career in cancer prevention and control research. Since I first joined the Cancer Center as a graduate student in the early 1990s, Dave has been my mentor, colleague, and most importantly, a genuine friend. Most notably, it has been a joy and privilege to write and edit *Fundamentals of Cancer Prevention* together since its first edition in 2003 through this year’s fourth edition in 2020.*

*I continue to thank my daughter, Rachael, who every day teaches me the value of health and motivates me to dedicate my work to improve cancer prevention and care.*
