Acknowledgments

The authors would like to thank Instituto Politécnico de Viana do Castelo—Escola superior de Melgaço, Instituto Politécnico de Coimbra—Escola Superior de Educação de Coimbra, and Instituto de Telecomunicações—Covilhã for the institutional support to make this book.

The authors would also to thank Dr. Dimitris Kalamaras and Prof. Frutuoso Silva for their scientific contribution in the previous works and for their suggestions for this book.

Finally, the authors would like to thank their families for the permanent support and for the patience with their scientific activity. For that reason, this book is dedicated to our families.

This work was supported by the FCT project PEst-OE/EEI/LA0008/2013.

Contents

- 1 Introduction 1**
 - 1.1 Social Network Analysis in Team Sports 1
 - 1.2 Structure of This Book 3
 - References 4

- 2 Social Network Analysis: Concepts and Definitions 7**
 - 2.1 Definitions and Concepts 7
 - References 17

- 3 Observational Tools to Collect Data in Team Sports 19**
 - 3.1 The Collective Nature of Team Sports 19
 - 3.2 Match Analysis in Team Sports: Contribution for Sports Training 21
 - 3.2.1 Traditional Notational Analysis 21
 - 3.2.2 Semi-computational Approaches: Observational Methodology 25
 - 3.2.3 Computational Approaches: Spatio-Temporal and Tactical Metrics 26
 - 3.3 Building a Low-Cost Instrument of Observation for Network Analysis 30
 - 3.3.1 Defining the Variables 31
 - 3.3.2 Observation and Codification for Team Sports Analysis 34
 - 3.3.3 Collecting and Processing the Data. 36
 - 3.4 Possible Software to Use in Social Network Analysis. 38
 - 3.4.1 Performance Analysis Tool (PATO). 39
 - 3.4.2 A Brief Overview of the Available SNA Software 39
 - References 43

4	Micro Levels of Analysis: Player's Centralities in the Team	47
4.1	Degree Centrality	47
4.1.1	Team Sports Network Interpretation	49
4.2	Closeness Centrality	49
4.2.1	Team Sports Network Interpretation	51
4.3	Stress Centrality	51
4.3.1	Team Sports Network Interpretation	52
4.4	Betweenness Centrality	52
4.4.1	Team Sports Network Interpretation	53
4.5	Eccentricity Centrality	53
4.5.1	Team Sports Network Interpretation	54
4.6	Degree Prestige	54
4.6.1	Team Sports Network Interpretation	56
4.7	Proximity Prestige	56
4.7.1	Team Sports Network Interpretation	57
4.8	Eigenvector Centrality	57
4.8.1	Team Sports Network Interpretation	57
4.9	Subgraph Centrality	57
4.9.1	Team Sports Network Interpretation	58
4.10	Laplacian Centrality	58
4.10.1	Team Sports Network Interpretation	58
4.11	Directed Information Centrality	59
4.11.1	Team Sports Network Interpretation	60
4.12	PageRank Centrality	60
4.12.1	Team Sports Network Interpretation	60
4.13	Power Centrality	61
4.13.1	Team Sports Network Interpretation	61
4.14	Centroid	61
4.14.1	Team Sports Network Interpretation	62
4.15	Clustering Coefficient	62
4.15.1	Team Sports Network Interpretation	63

6 Macro Levels of Analysis: Network of the Team	71
6.1 Total Links	71
6.1.1 Team Sports Network Interpretation	72
6.2 Network Density	72
6.2.1 Team Sports Network Interpretation	73
6.3 Distance	73
6.3.1 Team Sports Network Interpretation	74
6.4 Network Diameter	75
6.4.1 Team Sports Network Interpretation	75
6.5 Clique	75
6.5.1 Team Sports Network Interpretation	77
6.6 Network Heterogeneity	77
6.6.1 Team Sports Network Interpretation	78
6.7 Transitivity	79
6.7.1 Team Sports Network Interpretation	80
6.8 Reciprocity	80
6.8.1 Team Sports Network Interpretation	80
6.9 Global Centralization	81
6.9.1 Team Sports Network Interpretation	82
6.10 Global Prestige	82
6.10.1 Team Sports Network Interpretation	83
References	83
7 Argentina's Network Analysis in FIFA World Cup 2014: A Case Study.	85
7.1 Methods	85
7.1.1 Sample	85
7.1.2 Data Collecting and Processing	86
7.1.3 Variables of the Study	87
7.1.4 Statistical Procedures	87
7.2 Results	88
7.3 Discussion	90
7.4 Practical Applications	92
References	92

About the Authors

Filipe Manuel Clemente is a Professor in Instituto Politécnico de Viana do Castelo, Escola Superior de Desporto e Lazer (Portugal), and post-doc researcher in Instituto de Telecomunicações, Delegação da Covilhã (Portugal). He has a Ph.D. in sport sciences—sports training in Faculty of Sport Sciences and Physical Education from University of Coimbra (Portugal). His research in sports training and sports medicine has led to more than 100 publications. He has conducted studies in computational tactical metrics, network analysis applied to team sports analysis, small-sided and conditioned games, physical activity, and health and sports medicine. He is a guest editor on Sports Performance and Exercise Collection in SpringerPlus Journal. He is also an editor in more three scientific journals. E-mail: Filipe.clemente5@gmail.com

For further details see: http://www.researchgate.net/profile/Filipe_Clemente.

Fernando Manuel Lourenço Martins is a research member and scientific coordinator of Applied Mathematics group in Instituto de Telecomunicações, Delegação da Covilhã, Portugal, and a professor and course director of basic education in Instituto Politécnico de Coimbra, Escola Superior de Educação, Department of Education (Portugal). He has a Ph.D. in mathematics in University of Beira Interior (Portugal). His research in applied mathematics and statistical analysis has led to more than 110 publications. The research included early advances in network analysis applied to team sports analysis, statistical analysis in team sports, and mathematical teaching. He is a co-editor on Sports Performance and Exercise Collection in SpringerPlus Journal. E-mail: fmlmartins@ubi.pt

For further details see: http://www.researchgate.net/profile/Fernando_Martins13.

Rui Sousa Mendes is a Dean and full-time Professor in Instituto Politécnico de Coimbra, Escola Superior de Educação, Department of Education (Portugal). He has a Ph.D. in Motor Learning and Control Faculty of Human Kinetics, University of Lisbon (Portugal). His research in motor control and learning and sports training

has led to more than 120 publications. The research included early advances in dynamical systems applied to motor control and learning. He is a co-editor on Sports Performance and Exercise Collection in SpringerPlus Journal. E-mail: rmendes@esec.pt

For further details see: http://www.researchgate.net/profile/Rui_Mendes4.
