Preface

The International Diagnostic Course in Davos (IDKD) is a unique learning experience for both imaging specialists and clinicians. The course is useful for experienced radiologists, imaging specialists in training, and clinicians wishing to be updated on the current state of the art in all relevant fields of neuroimaging.

This course is organ based and disease oriented. It includes imaging of the brain, head, neck, and spine. In addition, there will be satellite courses covering pediatric radiology and nuclear medicine related to neuroimaging in more depth. These courses are also represented in the current Syllabus, as well as our traditional breast imaging satellite course.

During the last few years, there have been considerable advances in the field of neuroimaging driven by clinical as well as technological developments. These will be highlighted in the workshops given by internationally known experts in their field. The presentations encompass all the relevant imaging modalities including CT, MRI, hybrid imaging, and others.

This Syllabus contains condensed versions of the topics discussed in the IDKD workshops. As a result, this book offers a comprehensive review of the state-of-the-art neuroimaging.

This Syllabus was initially designed to provide the relevant information for the course participants in order to allow them to fully concentrate on the lectures and participate in the workshop discussions without the need of taking notes. However, the Syllabus has developed into a complete update for radiologists, radiology residents, nuclear physicians, and clinicians interested in neuroimaging.

Additional information on IDKD courses can be found on the IDKD website:
www.idkd.org

Contents

Part I Workshops

Cerebral Neoplasms	3
Edmond A. Knopp and Girish M. Fatterpekar	
Mass Lesions of the Brain: A Differential Diagnostic Approach	13
Michael N. Brant-Zawadzki and James G. Smirniotopoulos	
Evaluation of the Cerebral Vessels	17
Robert A. Willinsky	
Imaging of Traumatic Arterial Injuries to the Cervical Vessels	23
Mary E. Jensen	
Brain Ischemia: CT and MRI Techniques in Acute Stroke	37
Howard A. Rowley and Pedro Vilela	
Haemorrhagic Vascular Pathologies: Imaging for Haemorrhagic Stroke	49
James V. Byrne	
Hemorrhagic Vascular Pathology	55
Martin Wiesmann	
Acquired Demyelinating Diseases	59
Àlex Rovira and Kelly K. Koeller	
Movement Disorders and Metabolic Disease	71
Marco Essig and Hans Rolf Jäger	
Neuroimaging in Dementia	79
Frederik Barkhof and Mark A. van Buchem	
Traumatic Neuroemergency: Imaging Patients with Traumatic Brain Injury – an Introduction	87
Paul M. Parizel and C. Douglas Philips	
Nontraumatic Neuroemergencies	103
John R. Hesselink	
Nontraumatic Neuroemergencies	111
Patrick A. Brouwer	
Imaging the Patient with Epilepsy	117
Timo Krings and Lars Stenberg	
Cerebral Infections	135
David J. Mikulis and Majda M. Thurnher	

Disorders of the Sellar and Parasellar Region	143
Chip Truwit and Walter Kucharczyk	
Diseases of the Temporal Bone	153
Jan W. Casselman and Timothy John Beale	
Oral Cavity, Larynx, and Pharynx	161
Martin G. Mack and Hugh D. Curtin	
Extramucosal Spaces of the Head and Neck	169
Laurie A. Loevner and Jenny K. Hoang	
Degenerative Spinal Disease	177
Johan Van Goethem, Marguerite Faure, and Michael T. Modic	
Spinal Trauma and Spinal Cord Injury	187
Pia C. Sundgren and Adam E. Flanders	
Spinal Cord Inflammatory and Demyelinating Diseases	195
Philippe Demaerel and Jeffrey S. Ross	
Fetal MRI of the Brain and Spine	205
Marjolein H.G. Dremmen, P. Ellen Grant, and Thierry A.G.M. Huisman	
Children with Acute Neurologic Deficits: What Has to Be Ruled Out Within Two to Three Hours	215
W.K. ‘Kling’ Chong and Andrea Rossi	

Part II Nuclear Medicine Satellite Course “Diamond”

Integrated Imaging of Brain Tumours	223
Ian Law	
Nuclear Imaging of Dementia	233
Alexander Drzezga	
Nuclear Imaging of Movement Disorders	241
Klaus Tatsch	
Imaging of Brain Perfusion	249
John O. Prior	
Hybrid Imaging: Local Staging of Head and Neck Cancer	261
Martin W. Huellner and Tetsuro Sekine	
Integrated Imaging of Thyroid Disease	281
Michael P. Wissmeyer	

Part III Pediatric Radiology Satellite Course “Kangaroo”

Children with Epilepsy: Neuroimaging Findings	291
W.K. ‘Kling’ Chong	

Advanced MR Techniques in Pediatric Neuroradiology:
What Is Ready for Clinical Prime Time? 295
 P. Ellen Grant

Non-accidental Injury of the Pediatric Central Nervous System 307
 Marjolein H.G. Dremmen and Thierry A.G.M. Huisman

The Acute Pediatric Spine and Spinal Cord 317
 Andrea Rossi

Part IV Breast Imaging Satellite Course “Pearl”

Contrast-Enhanced Digital Mammography 339
 Elizabeth A. Morris

Current Challenges in Mammography Screening and Diagnostic Assessment 343
 Michael James Michell

Mammography: BI-RADS® Update and Tomosynthesis 347
 Elizabeth A. Morris

Breast Ultrasound: BI-RADS Update and Imaging Pathologic 351
 Alexander Munding

Breast MRI: An Update on Guidelines and BI-RADS® 361
 Lale Umutlu
