# About the Author

**Jonathan Powell** is a native of South Wales. With an interest in astronomy and related subjects since the late 1970s, Jonathan has written for two of the United Kingdom's largest astronomical magazines, *Astronomy Now* and *The Sky at Night*. Jonathan has been a freelance radio broadcaster on astronomy since 1985, chiefly for regional BBC output. During this time he has had two monthly slots, firstly on BBC Radio Gwent, then a three year run on BBC Radio Wales. Jonathan also took part in a BBC Radio 4 documentary series on meteorites. He has held the position of secretary for one of the local astronomical societies, with involvement for a number of years as local officer for the British Astronomical Association's Campaign for Dark Skies.

A former member of the Association for Astronomy Education—which encouraged and promoted astronomy among the young—Powell also headed up 'SpaceQuest,' an educational lecture tool, which toured schools with a two-hour presentation on astronomy. Jonathan has also written two monthly astronomy columns, firstly for a local newspaper which ran for seven years back in the 1980's entitled *Stargazing*, and more recently for a regional newspaper, the South Wales Argus, with a column entitled *The Night Sky*. Jonathan has also written a book on Welsh castles entitled *Fortress Wales*.
