Many thanks to John O'Neill for a crucial intervention at an early stage. To Rachel Cooper for keeping me in the game on numerous occasions and who, along with Helen Steward, provided valuable feedback on an early draft. To Neil Manson and Brian Garvey for reading all the material in this book at various stages and providing much needed guidance, comments, and suggestions (extra thanks go to Brian for convincing me that this was worth doing). And finally, to all the people who have listened to or read the material that ended up in this book, for their feedback and encouragement.

My research was partially funded by a bursary from the Faculty of Arts and Social Sciences at Lancaster University.
