# Contents

- 1 Strategic and Organizational Insights into Learning and Innovation in Hybrids and “New” Organizations** 1  
*Maria Carmela Annosi, Federica Brunetta, Mats Magnusson and Paolo Boccardelli*

## **Part I Innovation, Learning and Value Creation**

- 2 Innovation and Value Creation in Business Ecosystems** 13  
*Hassan Sherwani and Richard Tee*
- 3 Team and Time Within Project-Based Organizations: Insights from Creative Industries** 33  
*Francesca Vicentini and Luigi Nasta*
- 4 Collaborative Spaces and Coworking as Hybrid Workspaces: Friends or Foes of Learning and Innovation?** 51  
*Lucia Marchegiani and Gabriella Arcese*

- 5 Investigating the Impact of Agile Methods on Learning and Innovation** 73  
*Maria Carmela Annosi, Jens Hemphälä and Federica Brunetta*

**Part II Innovating: Structural and Strategic Issues**

- 6 The Role of Networks for Innovation in Temporary and Project-Based Organizations** 101  
*Federica Brunetta, Paolo Boccardelli and Andrea Lipparini*
- 7 Project Social Capital in Biotech R&D: Its Configuration and Impact on Knowledge Development** 115  
*Mats Magnusson, Daniele Mascia and Fausto di Vincenzo*
- 8 Professional Networks and the Adoption of Medical Technologies: An Empirical Study on Robotic Surgery** 143  
*Valentina Iacopino, Daniele Mascia, Alberto Monti and Americo Cicchetti*

**Part III Adapting Innovation and Learning to Strategic and Organizational Change**

- 9 Between Sponge and Titanium: Designing Micro and Macro Features for the Resilient Organization** 167  
*Luca Giustiniano and Franca Cantoni*
- 10 Issues of Control in Hybrids and “New” Organizations** 191  
*Maria Carmela Annosi*
- 11 Investigating the Impact of Agile Control Mechanisms on Learning in Scrum Teams** 213  
*Maria Carmela Annosi, Antonella Martini and Mats Magnusson*

## About the Editors

**Paolo Boccardelli** is Full Professor at LUISS Guido Carli University and Dean of LUISS Business School. He is also a member of the Lars Magnus Ericsson Foundation Scientific Committee and of the EFMD Women on Business School research group. Renowned speaker at International Conferences, he got the Best Reviewer Award from the Technology and Innovation Management Division and the Distinguished Paper Award of the Business Policy and Strategy Division of the Academy of Management.

**Maria Carmela Annosi** is Assistant Professor at the Management Studies Group of the School of Social Sciences at Wageningen University, The Netherlands. She received her Ph.D. at KTH Royal Institute of Technology, Sweden, and has been a visiting scholar at Rotterdam School of Management, Erasmus University, The Netherlands. Fellow in Management at LUISS Guido Carli University, Italy, her research interests include knowledge and innovation management.

**Federica Brunetta** is Assistant Professor at the Department of Business and Management and LUISS Business School, at LUISS Guido Carli University, Italy. She received a Ph.D. from the Università Cattolica del Sacro Cuore, Italy,

and has been a visiting scholar at the University of Michigan's Ross School of Business, USA. Her research interests include strategy and management of innovation.

**Mats Magnusson** is Professor of Product Innovation Engineering at KTH Royal Institute of Technology in Stockholm and Permanent Visiting Professor at LUISS School of Business and Management in Rome. His research and teaching activities cover a range of topics in the fields of product development, R&D management, and innovation management.

## **Contributors**

**Gabriella Arcese** Ph.D. in Commodity science, is Assistant Professor at the Ionian Department of Law, Economics and Environment, University of Bari Aldo Moro. She is an expert in Ecoinnovation practice and Sustainable innovation. She is interested in CSR, environmental, social, and economic sustainability. In particular, she focuses on environmental tools for sustainability, Life Cycle Thinking approach and its instruments, circular economy, and industrial ecology.

**Franca Cantoni** Ph.D. in Management Information Systems, is Associate Professor at the Faculty of Economics and Law of the Università Cattolica del Sacro Cuore, where she teaches Business Organization, Human Resource Management, and International HRM. Her research interests include outsourcing, organizational boundaries, and multilevel resilience. Author of numerous national and international publications, she has been visiting researcher at the Siegen Universität and at the Copenhagen Business School.

**René Chester Goduscheit** is Associate Professor at the Centre for Integrative Innovation Management at University of Southern Denmark. His main research interests concern open innovation (user involvement, interorganizational network-based innovation, and organizational innovation), technology transfer between knowledge institutions and industry, and business model innovation. He has published his research in a number of international journals including *Research*

*Policy, Industrial Marketing Management, Creativity and Innovation Management, and International Journal of Technology Management.*

**Americo Cicchetti** is Professor of Healthcare Management at the Università Cattolica del Sacro Cuore, Faculty of Economics, Rome. He is Director of the Graduate School of Health Economics and Management and chief of Research, Health Technology Assessment Unit and Biomedical Engineering “A. Gemelli” University Hospital Rome, Italy. He was a member of the Price and Reimbursement Committee of the Italian National Drug Agency (AIFA) from 2009 to 2015. He served as Director of the Health Technology Assessment international (2005–2008), and now, he is a member of the Executive Committee and Secretary. He chairs the HTAi’s Hospital Based HTA Interest Sub-group and the International Scientific Program Committee for the Annual Meeting of Health Technology Assessment International (Rome 2017). His other affiliations include the following: President of the Italian Society of Health Technology Assessment; a member of EUNetHTA JA3; and Leader of the Associated Partner Università Cattolica del Sacro Cuore.

**Fausto di Vincenzo** is Assistant Professor of Organization Studies at the Department of Economic Studies, University G. d’Annunzio at Pescara. His research interests focus on understanding the role played by social capital and network forms of organizing on different outcomes at individual and organizational level. He published in international journals such as *Social Science and Medicine, Health Care Management Review, Journal of Knowledge Management, International Journal of Project Management, and Industry & Innovation.*

**Luca Giustiniano** is Associate Professor at LUISS Guido Carli University, Rome, Italy. He received his Ph.D. from the same university. During his career, he has held various international visiting positions at universities and research centers. His research has been published in journals such as *British Journal of Management, Management Learning, European Management Journal, and Business Horizons*, among others. His research interests focus on organizational design, change, and metaphors.

**Jens Hemphälä** is a researcher at the School of Industrial Technology and Management at KTH in Stockholm, Department of Integrated Product Development. He holds an M.Sc. in Engineering Design and a Ph.D. in industrial and organizational psychology. His areas of research are social network analysis, business management, and innovation, focusing on obtainment of organizational sustainability.

**Valentina Iacopino** is Post Doctoral Researcher in Organization at the Università Cattolica del Sacro Cuore, Faculty of Economics, Rome, Italy. Her research interests and publications focus on the adoption process of technological innovations in the health care context at institutional, organizational, and professional level. In her studies, she applies traditional statistical methods and social network analysis (SNA) techniques to explore the adoption and diffusion of technologies in health care and to understand interorganizational as well as professional networks' role in the innovation process. Moreover, she deals with policy issues and governance of technological innovations both at national and local levels.

**Andrea Lipparini** is Full Professor of Management and teaches Strategic Alliances and Networks at the University of Bologna. He served as Chairman of the Master Degree Program in the same University for 10 years. He holds a Ph.D. in General Management and was a visiting scholar and visiting researcher at the Wharton School (U. of Pennsylvania). Professor Lipparini serves the Editorial Board of Strategic Management Journal, Long Range Planning, and *Economia & Management*, and is a member of the Strategic Management Society and of the Academy of Management.

**Lucia Marchegiani** Ph.D. in Information Systems and Organizations, is Assistant Professor of Business Organization and Human Resources Management at the Department of Business, Roma Tre University, where she teaches Knowledge Management and Human Resources Management. She holds a Ph.D. in Organization and Information Systems. Her research interests cover topics such as Technology and Organizations, Experimental Organizational Behaviour, Knowledge

Management and Social Media, Creative and Cultural Industries, Crowdsourcing, and Boundaries of Firms.

**Antonella Martini** Ph.D. is Associate Professor at the University of Pisa, where she teaches Business Management and Strategic and Competitive Intelligence. Her main research interests involve innovation management, strategic intelligence, and organizational ambidexterity. She is a board member of the Continuous Innovation Network (CINet) and president for CIMEA.

**Daniele Mascia** works as Associate Professor of Business Organization at the Department of Management, University of Bologna. His main research interests are related to the development and application of theories for social network dynamics, the analysis of leadership processes and team dynamics, and the study of learning in organizations. His works have appeared in prominent international journals such as *Social Networks*, *Journal of Knowledge Management*, and *Industry & Innovation*.

**Alberto Monti** is Adjunct Professor and a member of the Art, Science and Knowledge (ASK) Center at Bocconi University. His research focuses on the role of social identity and social networks in influencing individual's attitudes and behaviors such as knowledge sharing in organizations. His works have been published in *Research in the Sociology of Organizations*, *Management Decisions*, and the *Academy of Management Best Paper Proceedings*. He is also continuously involved in the private sector as an expert for applied research and consultant projects.

**Luigi Nasta** earned his Ph.D. in Management at LUISS University. Luigi's research examines how diversity in project-based organizations affects their performances. His latest project focuses on project-based organizations operating in the music sector. He tries to investigate what leads to the creation of specific music production teams, and what conditions allow some of these organizations to outperform in terms of commercial success and reward achieved.

**Pedro Neves** is Associate Professor of Organizational Behavior and Director of the Ph.D. Program in Management at the Nova School of Business and Economics. Current research interests include leadership

and interpersonal relations, organizational change management, and entrepreneurial behavior. His research has been published in journals such as the *Journal of Applied Psychology*, *Journal of Occupational and Organizational Psychology*, *Journal of Occupational Health Psychology*, and *The Leadership Quarterly*.

**Miguel Pina e Cunha** is Fundação Maria Amélia de Mello Professor of Leadership at the School of Business and Economics, Universidade Nova de Lisboa. He received his Ph.D. from Tilburg University. His research has been published in journals such as the *Academy of Management Review*, *Applied Psychology: An International Review*, *British Journal of Management*, *Human Relations*, *Journal of Management Studies*, and *Organization Studies*, among others. He is researching positive and negative leadership, organization as process and paradox.

**Arménio Rego** is Professor at Católica Porto Business School, Universidade Católica Portuguesa, Portugal. He has published in journals such as *Human Relations*, *Journal of Business Ethics*, *Journal of Business Research*, *Journal of Management*, and *The Leadership Quarterly*, among others. His research deals with positive leadership and positive organizational behavior.

**Hassan Sherwani** is currently conducting his Ph.D. at LUISS Business School, Italy. Before joining LUISS, he has worked as Network Engineer in Multi-national Telecom Company in Pakistan and later as a junior business analyst with a Finnish firm. He has graduated in Business Economics and Management from University of Oulu, Finland. Hassan has received his Bachelor of Electrical Engineering from Comsats University, Pakistan.

**Richard Tee** is Assistant Professor at the Department of Business and Management, at LUISS Guido Carli University, Italy. His research focuses on how technologies and industries coevolve and how firms adapt to and influence these dynamics. His doctoral thesis was a finalist for the EGOS/McClelland Dissertation Award, and other works have been recognized by best paper awards at the AOM and SMS conferences. He has examined a variety of settings including telecoms, IT, and construction.

**Francesca Vicentini** is Assistant Professor in Strategy at Link Campus University in Rome, Italy. She has been post-doc research fellow at LUISS Guido Carli University, Italy. She received a Ph.D. in Management at Bologna University, Italy.

Her research interests cover topics in the field of strategy and human resource management, such as team composition and team diversity of project-based settings such as creative industries.
