Preface

Message from the General Chairs

CollabTech 2017, the 9th International Conference on Collaboration Technologies, offered a unique forum for academics and practitioners to present and discuss innovative ideas, methods, or implementations related to collaboration technologies, which are greatly needed for various everyday collaboration activities due to recent advances in networking, computing, and interaction technologies.

The previous CollabTech conferences were held in Tokyo in 2005, Tsukuba in 2006, Seoul in 2007, Wakayama in 2008, Sydney in 2009, Sapporo in 2012, Santiago in 2014, and Kanazawa in 2016. Following the success of the joint organization with CRIWG 2014 and CRIWG 2016, CollabTech 2017 was co-located and organized with CRIWG 2017 again, but this time in Saskatoon, Canada. The CRIWG and CollabTech communities had similar research topics and goals, but had been geographically located in different regions. We believed this joint endeavor would provide an interesting opportunity to meet each other.

The success of the conference was largely due to the program co-chairs, the conference committee members, and the reviewers, whose efforts made the conference possible. The success was also due to University of Saskatchewan, the Information Processing Society of Japan (IPSJ), the SIG on Groupware and Network Services of IPSJ, the SIG on Cyberspace of the Virtual Reality Society of Japan, and the SIG on Communication Enhancement of the Human Interface Society.

We are pleased that the conference was fruitful for all participants and played an important role in cultivating the community in this research field.

Message from the Program Chairs

After eight events in the International Conference on Collaboration Technologies series, we held the ninth edition (CollabTech 2017) in Saskatoon, Canada. The following topics on collaboration technologies were discussed:

- Cross-Cultural Collaboration
- Everyday Computing
- Learning Support System
- Remote Collaboration
- Security, Rescue and Disaster Support
- Social Networking

For this conference, we received 37 submissions (26 full papers, 11 work-in-progress papers) and assigned three reviewers per full paper or two reviewers per work-in-progress paper. As a result, we had ten full papers and six work-in-progress papers. The acceptance rate was 43%. Because of the high quality of the submissions, many excellent papers were not among those accepted. We hope that the detailed technical review comments we provided are helpful.

Without our distinguished Program Committee members, we could not have maintained our high standards. We truly appreciate their devotion. Finally, we hope that these proceedings serve as a reference for future researchers in this rapidly evolving field.

Contents

Anonymity-Preserving Methods for Client-Side Filtering in Position-Based Collaboration Approaches	1
<i>Henrik Detjen, Stefan Hoffmann, Gerd Bumiller, Stefan Geisler, Marc Jansen, and Markus Markard</i>	
What Do Remote Music Performances Lack?	14
<i>Hiroyuki Tarumi, Tomoki Nakai, Kei Miyazaki, Daiki Yamashita, and Yuya Takasaki</i>	
A Method for Estimating Worker States Using a Combination of Ambient Sensors for Remote Collaboration	22
<i>Kazuyuki Iso, Minoru Kobayashi, and Takaya Yuizono</i>	
Tag Chat: A Tag-Based Past Topics Recollection Support System.	29
<i>Junko Itou, Rina Tanaka, Jun Munemori, and Noboru Babaguchi</i>	
Availability of Disaster Preparedness Awareness Improvement for Supplying Knowledge Using Microblog and Comic Expression	37
<i>Sojo Enokida, Taku Fukushima, Takashi Yoshino, Tomoki Motozuka, and Nobuyuki Egusa</i>	
Technological Feasibility of a Smartphone-Based System to Integrate Volunteers into Professional Rescue Processes	53
<i>Stefan Hoffmann, Markus Markard, Marc Jansen, Gerd Bumiller, Henrik Detjen, and Stefan Geisler</i>	
A Triage Training System Considering Cooperation and Proficiency of Multiple Trainees	68
<i>Kento Izumida, Ryuga Kato, and Hiroshi Shigeno</i>	
A Scratch-Based Collaborative Learning System with a Shared Stage Screen	84
<i>Yusuke Fukuma, Kumpei Tsutsui, Hideyuki Takada, and Ian Piumarta</i>	
AccelChalk: Detecting Writing Actions with Chalk Acceleration for Collaboration Between Teachers and Students	99
<i>Taishi Okazawa and Hironori Egi</i>	
Tourist Information Extraction Method from Tweets Without Tourist Spot Names for Tourist Information Visualization System	107
<i>Sayuri Watanabe and Takashi Yoshino</i>	

Enhancing Participation Balance in Intercultural Collaboration	116
<i>Mondheera Pituxcoosuvann and Toru Ishida</i>	
A Culturally-Situated Agent to Support Intercultural Collaboration	130
<i>Victoria Abou Khalil, Toru Ishida, Masayuki Otani, and Donghui Lin</i>	
Enhancing Learners' Cross-Cultural Understanding in Language and Culture Class Using InCircle	145
<i>Noriko Uosaki, Takahiro Yonekawa, and Chengjiu Yin</i>	
Children's Social Behavior Analysis System Using BLE and Accelerometer.	153
<i>Shuta Nakamae, Shumpei Kataoka, Can Tang, Simona Vasilache, Satoshi Saga, Buntarou Shizuki, and Shin Takahashi</i>	
Extension of Smartphone by Wearable Input/Output Interface with Floor Projection.	168
<i>Nobuchika Sakata, Fumihiro Sato, Tomu Tominaga, and Yoshinori Hijikata</i>	
Introducing Gamification to Cleaning and Housekeeping Work.	182
<i>Satoshi Ichimura</i>	
Author Index	191
