

# **Springer Series on Cultural Computing**

## **Editor-in-chief**

Ernest Edmonds, University of Technology, Sydney, Australia

## **Series editors**

Frieder Nake, University of Bremen, Bremen, Germany

Nick Bryan-Kinns, Queen Mary University of London, London, UK

Linda Candy, University of Technology, Sydney, Australia

David England, Liverpool John Moores University, Liverpool, UK

Andrew Hugill, De Montfort University, Leicester, UK

Shigeki Amitani, Adobe Systems Inc., Tokyo, Japan

Doug Riecken, Columbia University, New York, USA

Jonas Lowgren, Linköping University, Norrköping, Sweden

Ellen Yi-Luen Do, University of Colorado Boulder, Boulder, USA

Sam Ferguson, University of Technology Sydney, Sydney, Australia

# Acknowledgements

Acknowledgement and many thanks are due to the creative practitioners who generously gave up their time to be interviewed. Their voices provided crucial insights and perspectives that have shaped and enriched the book: Joe Agius, Simon Barker, Patrick Cook, Clare Grant, Sue Healey, Alon Ilsar, Andrew Johnston, George Poonkhin Khut, Andrew Lancaster, Simon McIntyre, Ilija Melentijevic, Roger Mills, Manolete Mora, Rhiannon Newton, Bree van Reyk, Andrew Schultz, Greg Sheehan, and Nalina Wait.

Many thanks are also owed to Chris Heine and Fiona Pearce who read drafts of this book and provided invaluable encouragement, critique and guidance.

# Contents

<b>1</b>	<b>Rhythmic Experience</b> . . . . .	1
1.1	Outline of the Book . . . . .	2
1.2	Introducing Rhythm and Rhythmic Experience . . . . .	4
	References . . . . .	8
<b>Part I Experiencing Rhythm</b>		
<b>2</b>	<b>Culture and Time</b> . . . . .	13
2.1	Time Can Be Anything We Want It to Be: Interview with Manolete Mora, Ethnomusicologist . . . . .	14
2.2	Cultures of Time . . . . .	17
2.3	Cultural Practices of Listening and Performing . . . . .	21
2.4	The Socio-Cultural Uses of Synchronicity . . . . .	23
	References . . . . .	27
<b>3</b>	<b>Moving Bodies</b> . . . . .	29
3.1	The Movement Is the Rhythm: Interview with Simon Barker, Drummer and Composer . . . . .	30
3.2	Movement as Rhythmic Knowledge . . . . .	33
3.3	Bodily Communication . . . . .	36
3.4	Analysing Embodied Rhythmic Experience . . . . .	38
3.5	Designing Rhythms for Moving Bodies . . . . .	41
	References . . . . .	44
<b>4</b>	<b>Daily Cycles</b> . . . . .	47
4.1	Let Them Find Their Own Rhythm: Interview with Simon McIntyre, Educational Designer . . . . .	48
4.2	Understanding the Rhythms of Everyday Life . . . . .	51
4.3	When Digital Rhythms Meet Daily Cycles . . . . .	55
	References . . . . .	60

<b>5</b>	<b>Playing Rhythm</b> . . . . .	61
5.1	Activating Unexpected Events: Interview with Nalina Wait, Dance Artist . . . . .	62
5.2	Keeping Time . . . . .	65
5.3	Playfulness and Improvisation . . . . .	68
5.4	The Pleasures of Performance . . . . .	71
	References . . . . .	75
 <b>Part II Designing Rhythm</b>		
<b>6</b>	<b>Being Swept in</b> . . . . .	79
6.1	Rhythm Is the Breath of the Work: Interview with Clare Grant, Performer, Director and Dramaturg . . . . .	80
6.2	Captivation . . . . .	83
6.3	Entrances and Exits . . . . .	87
	References . . . . .	92
<b>7</b>	<b>Sculpting Attention</b> . . . . .	95
7.1	Being as a Way of Doing: Interview with George Poonkhin Khut, Artist and Interaction Designer . . . . .	96
7.2	Working with Qualities of Attention . . . . .	101
	References . . . . .	107
<b>8</b>	<b>Crafting Trajectories</b> . . . . .	109
8.1	Patterns of Rhythmic Possibilities: Interview with Patrick Cook and Ilija Melentijevic, Game Designers . . . . .	110
8.2	Rhythm as a Unifying Force . . . . .	114
8.3	Structural Dynamics . . . . .	116
	References . . . . .	121
<b>9</b>	<b>Textures and Transitions</b> . . . . .	123
9.1	The Speed an Idea Needs to Happen: Interview with Andrew Schultz, Composer . . . . .	124
9.2	Turning a Corner . . . . .	127
9.3	Building Textural Layers . . . . .	130
	References . . . . .	134
<b>10</b>	<b>Predictability</b> . . . . .	135
10.1	If You Rock the Baby It Will Go to Sleep: Interview with Rhiannon Newton, Choreographer . . . . .	136
10.2	The Satisfactions of Repetition . . . . .	139
10.3	Breaking Habits and Creating Uncertainty . . . . .	142
	References . . . . .	147

# List of Figures

Fig. 1.1 Diagram showing the duration of the events of a rhythm (shown as black rectangles) and the duration between the start points of consecutive events which is called the inter-onset interval (the distance between the two grey lines) . . . . . 6

Fig. 6.1 Screenshot of the opening game instruction screen in *The Path* (Tale of Tales 2009) highlighting the two rules of the game: go to grandmother’s house and stay on the path . . . . . 89

Fig. 7.1 *Behind your eyes, between your ears*: Liveworks, 2015. George Khut with David Morris-Oliveros (visual effects programming). Alpha brainwave controlled interactive sounds and graphics. Documentation of participants’ interactive with the work, as shown at Liveworks 2015 festival of experimental art, performance space, Sydney, Australia. . . . . 98

Fig. 7.2 *BrightHearts* app for iOS. Four screenshots of heart-rate controlled interactive artwork for Apple iOS devices, 2014–2017 (George Khut with developers Greg Turner, Jason McDermott and Trent Brooks). The colour and layering of the rings and circles is controlled by changes in heart rate. . . . . 99

Fig. 8.1 An example of the kind of tartan-like pattern used to map the rhythmic density of major and minor events across a game, its goals and levels (as suggested by Christopher Totten). Significant events and goals have the thickest lines. . . . . 116

Fig. 8.2 An example of the rhythms within the interest curve that game designer Jesse Schell proposes will create an entertaining experience. . . . . 119

Fig. 8.3 An example screen of the game *Limbo* (Playdead 2010) showing the black and white colour scheme. The main little boy character is on the middle right and two of the living (or dead) things in the game are on the left—a bird and a dead boy . . . . . 120

Fig. 8.4 A chart representing the rhythm of other things (living and dead) within the game *Limbo* (Playdead 2010). The horizontal axis shows the chapter number of the game in the PS3 version. The vertical axis shows the total number of things in each chapter. The different shades show the different categories of things. Those that cause the most intense engagement are in darker shades . . . . . 120

Fig. 9.1 Left is a rhythm diamond based on 8 beats grouped in a 3, 3, 2 pattern. In the centre and right are two example ways of playing through the 24 beats in this diamond. The rhythms of both ways of playing will align because they involve the same number of beats . . . . . 133

Fig. 10.1 Screen shot of the clock radio that can be found on the Transmission Horologe island in the iPad version of the game *Sailor’s Dream* (Simogo 2014). The time on the clock matches the time on the players iPad. If the player is in front of the clock when the hour strikes, they will hear that hour’s radio transmission. At any other time, they will only hear static . . . . . 145

Fig. 11.1 Image of oboist Linda Walsh performing in *Blue Space* in September 2015 at the Creativity and Cognition Studios, UTS, Australia . . . . . 151

Fig. 11.2 Image from a performance of the Stalker Theatre Company work *Encoded* first presented at Carriageworks in Sydney in November 2012. This image shows the type of fluid simulation that Andrew Johnston describes as relaxed loose and flowing . . . . . 152

Fig. 11.3 Image from a performance of the Stalker Theatre Company work *Encoded* first presented at Carriageworks in Sydney in November 2012. This image shows the type of fluid simulation that Andrew Johnston describes as jerky and harsh . . . . . 153

Fig. 11.4 Images of the artwork *Just a Bit of Spin* by Brigid Costello exhibited at the Powerhouse Museum, Sydney Australia in 2007. Similar to early animation devices, the black disc had slits that the participant looked through to see audio-visual material that animated in response to the spinning of the disc. . . . . 164

# List of Tables

Table 5.1	Rudolph Laban’s motion factors and effort elements (adapted from Laban and Ullmann 1980, p. 77) . . . . .	73
Table 7.1	The attentional processes involved in playful rhythmic experience are divided into those that relate more to perceiving or experiencing a rhythm, and those that relate more to actively performing a rhythm . . . . .	106
Table 12.1	A mapping between the processes of playful rhythmic attending and the pleasures of play . . . . .	173
