The Impact of Somatosensory Input on Autonomic Functions

A. Sato¹, Y. Sato², and R.F. Schmidt³

¹ Department of the Autonomic Nervous System,
Tokyo Metropolitan Institute of Gerontology,
35-2 Sakaecho, Itabashi-ku, Tokyo 173, Japan

² Laboratory of Physiology, Tsukuba College of Technology,
4-12-7 Ksuga, Tsukuba 305, Japan

³ Physiologisches Institut der Universität Würzburg,
Röntgenring 9, 97070 Würzburg, Germany

Contents

1	Introduction	1
2	Somatic Sources of Afferent Input to the Autonomic Nervous System	7
2.1	Introduction	7
2.2	Low-Threshold Somatosensory Receptor	8
2.2.1	Cutaneous and Subcutaneous Low-Threshold Sensory Receptors	9
2.2.1.1	Mechanoreceptors	9
2.2.1.2	Thermoreceptors	18
2.2.2	Low-Threshold Sensory Receptors in Muscle and Tendon	21
2.2.2.1	Muscle Spindles and Tendon Organs	21
2.2.2.2	Noncorpuscular Low-Threshold Sensory Receptors in Muscle and Tendon	24
2.2.3	Low-Threshold Sensory Receptors in Articular Tissue	27
2.2.3.1	Response Properties of Group II Articular Afferents	27
2.2.3.2	Response Properties of Low-Threshold Group III and IV Articular Afferents	29

2.2.3.3	Total Sensory Outflow at Rest and During Movement of Normal Joints	29
2.3	Somatic Nociceptors	
2.3.1	Cutaneous and Subcutaneous Nociceptors	31
2.3.1.1	Mechanonociceptors (HTM-A δ -Units and CM Units)	31
2.3.1.2	Heat Nociceptors (CH Units)	32
2.3.1.3	Polymodal Nociceptors (CMH and AMH Units)	32
2.3.1.4	Unresponsive Cutaneous C Nociceptors (CM _i H _i Units)	33
2.3.1.5	Experimental Activation of Cutaneous Nociceptors	34
2.3.2	Nociceptors in Muscle and Tendon	34
2.3.2.1	Localization and Structure of Muscle and Tendon Nociceptors	35
2.3.2.2	Response Properties of Muscle and Tendon Nociceptors	35
2.3.3	Articular Nociceptors	38
2.3.3.1	Fine Structure of Group III and IV Articular Terminals	38
2.3.3.2	Response Properties of Group III and IV Articular Nociceptors	40
2.3.4	Sensitization and Desensitization of Somatic Nociceptors	43
2.3.4.1	General Aspects of Sensitization of Nociceptors	43
2.3.4.2	General Aspects of Desensitization of Nociceptors	45
2.3.4.3	Special Aspects of the Sensitization of Cutaneous, Muscular, and Articular Nociceptors	48
2.4	Composition of Somatic Nerves	54
2.4.1	Classification of Primary Somatic Afferent Nerve Fibers	54
2.4.2	Composition of Cutaneous Nerves	55
2.4.3	Composition of Muscle Nerves	57
2.4.4	Composition of Articular Nerves	58
2.4.5	Composition of Mixed Nerves, Spinal and Dorsal Roots	60
2.4.6	Special Aspects of Cranial Nerves	61

2.4.7	Activation of Primary Afferent Nerve Fibers by Electrical Stimulation	62
2.4.7.1	Advantages and Disadvantages of Electrical Stimulation of Primary Afferents . .	62
2.4.7.2	Effects of Preferential Blocking of A and C Fibers	63
2.5	Spinal and Brain Stem Termination and Projection of Somatic Primary Afferents . .	64
2.5.1	Termination and Projection of Cutaneous Primary Afferents	64
2.5.2	Termination and Projection of Muscle Primary Afferents	66
2.5.3	Termination and Projection of Articular Primary Afferents	68
2.6	Summary and Conclusions	69
 3	 Central Processing (Pathways, Modes of Operation)	 73
3.1	Introduction	73
3.2	Somato-sympathetic Reflexes	76
3.2.1	Sympathetic Reflex Responses to Stimulation of Myelinated (A) Somatic Afferents; the A Reflexes	76
3.2.1.1	Early Spinal, Late Supraspinal (or Medullary), and Very Late Suprapontine A reflex Components	76
3.2.1.2	Inhibitory Somato-sympathetic Reflexes	87
3.2.2	Sympathetic Reflex Responses to Stimulation of Unmyelinated (C) Somatic Afferents, the C Reflexes	91
3.2.2.1	Medullary Regions and Spinal Tract Involved in the Supraspinal C Reflexes	95
3.2.3	Convergence of Various Somato-sympathetic Reflex Pathways on Single Sympathetic Neurons	96
3.2.3.1	Preganglionic Neurons	96
3.2.3.2	Postganglionic Neurons	97

3.2.4	Various Influences on Somato-sympathetic Reflexes	100
3.2.4.1	Modulation by Baroreceptor and Chemoreceptor Excitation	100
3.2.4.2	Involvement of Opioid Receptors	100
3.2.4.3	Involvement of Nitric Oxide	102
3.2.4.4	Involvement of Glutamate Receptors	104
3.2.4.5	Effects of Anesthesia	105
3.3	Somato-parasympathetic Reflexes	107
3.3.1	Cranial Parasympathetic Recording	107
3.3.2	Sacral Parasympathetic Recording	108
3.4	Visceral Regulation by Axon Reflex-Like Mechanisms Following Somatic Afferent Stimulation	110
3.5	Comparison of Somato-autonomic and Somato-somatic Reflexes	111
3.6	Conclusion	112
 4	 Organ Reactions to Somatosensory Input ("Somato-autonomic Reflexes")	 115
4.1	Somatosensory Modulation of the Cardiovascular System	115
4.1.1	Introduction	115
4.1.2	Somatosensory Modulation of Heart Rate and Blood Pressure	118
4.1.2.1	Cutaneous Stimulation	118
4.1.2.2	Muscle Stimulation	127
4.1.2.3	Acupuncture-Like Stimulation	133
4.1.2.4	Joint Stimulation	135
4.1.2.5	Electrical Stimulation	139
4.1.2.6	Central Processing of Somato-cardiac Reflexes	146
4.1.3	Somatosensory Modulation of Blood Flow	148
4.1.3.1	Skin Blood Flow	148
4.1.3.2	Muscle Blood Flow	150
4.1.3.3	Cutaneous and Muscle Sympathetic Nerve Activity	152

4.1.3.4	Somatosensory Modulation of Blood Flow in the Genital Organs	153
4.1.3.5	Somatosensory Modulation of Regional Cerebral Blood Flow	154
4.1.3.6	Somatosensory Modulation of Blood Flow in the Peripheral Nerves	160
4.1.4	Conclusion	163
4.2	Somatosensory Modulation of the Digestive System	166
4.2.1	Introduction	166
4.2.2	Somatosensory Modulation of Gastrointestinal Motility	168
4.2.2.1	Gastric Motility	168
4.2.2.2	Intestinal Motility	175
4.2.3	Somatosensory Modulation of Digestive Secretion	180
4.2.3.1	Salivary Secretion	180
4.2.3.2	Gastrointestinal Secretion	182
4.2.4	Somatosensory Modulation of Gastrointestinal Blood Flow	183
4.2.5	Central Processing of Somato-gastrointestinal Reflexes	184
4.2.5.1	Somato-splanchnic Sympathetic Reflex	184
4.2.5.2	Somato-vagal Reflex	185
4.2.6	Conclusion	186
4.3	Somatosensory Modulation of the Urinary System	189
4.3.1	Introduction	189
4.3.2	Cutaneous Stimulation	192
4.3.2.1	Mechanical Stimulation	192
4.3.2.2	Thermal Stimulation	199
4.3.3	Muscle Stimulation	201
4.3.4	Acupuncture-Like Stimulation	202
4.3.5	Electrical Stimulation	203
4.3.6	Central Processing of Somato-vesical Reflexes	206
4.3.7	Conclusion	211
4.4	Somatosensory Modulation of the Sudomotor System	213
4.4.1	Introduction	213

4.4.2	Somatosensory Modulation of the Sweat Gland	215
4.4.3	Conclusion	219
4.5	Somatosensory Modulation of Hormonal Secretion	219
4.5.1	Introduction	219
4.5.2	Adrenal Medullary and Pancreatic Hormones .	220
4.5.2.1	Adrenal Medullary Hormones	221
4.5.2.2	Pancreatic Hormones	236
4.5.3	Hypothalamo-anterior Pituitary Hormone System	239
4.5.3.1	CRH-ACTH-Cortical Hormones	241
4.5.3.2	Gonadotropin-Gonadal Sex Hormones	244
4.5.3.3	Growth Hormone	246
4.5.3.4	Prolactin	247
4.5.4	Posterior Pituitary Hormone System	248
4.5.4.1	Oxytocin	249
4.5.4.2	Vasopressin	251
4.5.5	Conclusion	251
4.6	Somatosensory Modulation of the Immune System	253
4.6.1	Introduction	253
4.6.2	Cutaneous Stimulation	254
4.6.3	Conclusion	255
5	Concluding Remarks	257
	Appendix: A Personal Note	263
	References	265
	Subject Index	307
