

Case Studies in Synchronization

*One day Alice came to a fork in the road and saw a Cheshire cat in a tree.
“Which road do I take?” she asked. “Where do you want to go?” was his response.
“I don’t know,” Alice answered. “Then,” said the cat, “it doesn’t matter.”
Lewis Carroll, “Alice in Wonderland”*

*Logic will get you from A to B. Imagination will take you everywhere.
Albert Einstein*

This part offers an exciting excursion into the complex web of synchronization phenomena. There are systems of various origins, there are connections of various forms. Real living systems are still beyond our imagination. But there is universality in their behavior.
