Series Information

Progress in Botany is devoted to all the colourful aspects of plant biology. The annual volumes consist of invited reviews spanning the fields of molecular genetics, cell biology, physiology, comparative morphology, systematics, ecology, biotechnology and vegetation science, and combine the depth of the frontiers of research with considerable breadth of view. Thus, they establish unique links in a world of increasing specialization. All chapters are thoroughly peer-reviewed by at least two independent referees.

Contents

Part I Review

Ants, Plants and Fungi: A View on Some Patterns of Interaction and Diversity	3
Andreas Bresinsky	

Part II Genetics

ABA as a Universal Plant Hormone	57
Yoichi Sakata, Kenji Komatsu, and Daisuke Takezawa	
Reduced Genomes from Parasitic Plant Plastids: Templates for Minimal Plastomes?	97
Kirsten Krause and Lars B. Scharff	

Part III Physiology

Nucleotides and Nucleosides: Transport, Metabolism, and Signaling Function of Extracellular ATP	119
Torsten Möhlmann, Iris Steinebrunner, and Ekkehard Neuhaus	
Regulation of PPi Levels Through the Vacuolar Membrane H⁺-Pyrophosphatase	145
Ali Ferjani, Shoji Segami, Mariko Asaoka, and Masayoshi Maeshima	
Interactions Between Nutrients and Crassulacean Acid Metabolism	167
Maria Aurineide Rodrigues, Luciano Freschi, Paula Natália Pereira, and Helenice Mercier	
Guttation: Quantification, Microbiology and Implications for Phytopathology	187
Sanjay Singh	

Adaptation of Rice to Flooded Soils 215
G.J.D. Kirk, H. Greenway, B.J. Atwell, A.M. Ismail, and T.D. Colmer

**Physiological Mechanisms of Flooding Tolerance in Rice:
Transient Complete Submergence and Prolonged Standing Water** 255
T.D. Colmer, W. Armstrong, H. Greenway, A.M. Ismail, G.J.D. Kirk,
and B.J. Atwell

Part IV Ecology

Beyond Mutualism: Complex Mycorrhizal Interactions 311
C.S. Bledsoe, M.F. Allen, and D. Southworth

Ecology of Phreatophytes 335
Frank M. Thomas

**Some Like It Hot: Are Desert Plants Indifferent to Climate
Change?** 377
Katja Tielbörger and Roberto Salguero-Gómez

List of Contributors

M.F. Allen Center for Conservation Biology, University of California, Riverside, CA, USA

W. Armstrong School of Plant Biology and the UWA Institute of Agriculture, The University of Western Australia, Crawley, WA, Australia

Department of Biological Sciences, University of Hull, Yorkshire, UK

Mariko Asaoka Graduate School of Bioagricultural Sciences and School of Agricultural Sciences, Nagoya University, Furo-cho, Chikusa-ku, Nagoya, Japan

B.J. Atwell Department of Biological Sciences, Faculty of Science, Macquarie University, Sydney, NSW, Australia

C.S. Bledsoe Department of Land, Air, and Water Resources, University of California, Davis, CA, USA

Andreas Bresinsky Institute of Botany of University of Regensburg, Regensburg, Germany

T.D. Colmer School of Plant Biology and the UWA Institute of Agriculture, The University of Western Australia, Crawley, WA, Australia

Ali Ferjani Graduate School of Bioagricultural Sciences and School of Agricultural Sciences, Nagoya University, Furo-cho, Chikusa-ku, Nagoya, Japan

Luciano Freschi Department of Botany, Institute of Biosciences, University of São Paulo, São Paulo, SP, Brazil

H. Greenway School of Plant Biology and the UWA Institute of Agriculture, The University of Western Australia, Crawley, WA, Australia

A.M. Ismail International Rice Research Institute, Metro Manila, Philippines

G.J.D. Kirk National Soil Resources Institute, Cranfield University, Cranfield, Bedford, UK

Environmental Science and Technology, Cranfield University, Bedfordshire, England, UK

Kenji Komatsu Department of Bioproduction Technology, Junior College of Tokyo University of Agriculture, Setagaya-ku, Tokyo, Japan

Kirsten Krause Department for Arctic and Marine Biology, University of Tromsø, Tromsø, Norway

Masayoshi Maeshima Graduate School of Bioagricultural Sciences and School of Agricultural Sciences, Nagoya University, Furo-cho, Chikusa-ku, Nagoya, Japan

Helenice Mercier Department of Botany, Institute of Biosciences, University of São Paulo, São Paulo, SP, Brazil

Torsten Möhlmann Pflanzenphysiologie, Fachbereich Biologie, Universität Kaiserslautern, Kaiserslautern, Germany

Ekkehard Neuhaus Pflanzenphysiologie, Fachbereich Biologie, Universität Kaiserslautern, Kaiserslautern, Germany

Paula Natália Pereira Department of Botany, Institute of Biosciences, University of São Paulo, São Paulo, SP, Brazil

Maria Aurineide Rodrigues Department of Botany, Institute of Biosciences, University of São Paulo, São Paulo, SP, Brazil

Yoichi Sakata Department of Bioscience, Tokyo University of Agriculture, Setagaya-ku, Tokyo, Japan

Roberto Salguero-Gómez Evolutionary Biodemography Laboratory, Max Planck Institute for Demographic Research, Rostock, Germany

Centre for Biodiversity and Conservation Science, School of Biological Sciences, The University of Queensland, St Lucia, QLD, Australia

Lars B. Scharff Max-Planck Institute for Molecular Plant Physiology, Potsdam-Golm, Germany

Shoji Segami Graduate School of Bioagricultural Sciences and School of Agricultural Sciences, Nagoya University, Furo-cho, Chikusa-ku, Nagoya, Japan

Sanjay Singh School of Plant Sciences, College of Agriculture and Environmental Sciences, Haramaya University, Haramaya, Ethiopia

D. Southworth Department of Biology, Southern Oregon University, Ashland, OR, USA

Iris Steinebrunner Department of Biology, Section of Molecular Biotechnology, Technische Universität Dresden, Dresden, Germany

Daisuke Takezawa Graduate School of Science and Engineering and Institute for Environmental Science and Technology, Saitama University, Saitama, Japan

Frank M. Thomas Faculty of Geography and Geosciences, Geobotany, University of Trier, Trier, Germany

Katja Tielbörger Plant Ecology Group, University of Tübingen, Tübingen, Germany
