## Preface

Despite the common understanding of the importance of desert development in the contemporary world, there are relatively few books published to date on this subject. The books and collective volumes published in this field deal primarily with environmental and physical aspects of desert development such as soil, agriculture, vegetation, water resources, etc.

In contrast, this book addresses the issues of regional and urban development in desert areas, which have not been given sufficient attention. The present book is socially oriented. It considers physical development of desert regions not as an end in itself, but rather as an essential precondition for creating socially attractive and desirable environments for human settlement. The book addresses the issues of desert development at three distinctive conceptual levels – region, urban environment, and building – and deals with both cold and hot deserts.

Approximately half of the chapters in this book are original contributions that have not been published elsewhere. The remaining chapters fall into two groups: 1) chapters which have been reprinted from various refereed journals, and 2) chapters initially printed elsewhere and revised by their respective authors specifically for this collective volume. In the former case, permission to reproduce the material has been obtained from the respective copyright holders, and the details of original publication and names of copyright holders are indicated in footnotes. The chapters which are revised versions of previously published material include citation of the original publication details in footnotes. The authors of these chapters are solely responsible for the revised versions of their articles in matters pertaining to copyrights.

We would like to acknowledge the generous assistance of the Center for Desert Architecture and Urban Planning at J. Blaustein Institute for Desert Research, Ben-Gurion University of the Negev that has made possible to publish this book. We would also like to thank the authors of individual contributions for helping us to prepare this collective volume and Wolfgang R. Mozafi-Haller for his help in preparing the camera-ready copy for this book.

# Contents

<b>Preface.....</b>	<b>V</b>
<b>List of Contributors.....</b>	<b>XV</b>
<b>1 Introduction.....</b>	<b>1</b>
<i>B. A. Portnov</i>	
1.1 Climatic Causes of Aridity.....	2
1.2 Criteria for Aridity.....	3
1.3 Geographic Extent of Deserts.....	4
1.4 The Process of Desertification.....	5
1.5 Deserts and Urban Growth.....	6
1.6 Scope of the Book.....	10
References .....	13

## Part One

---

### REGIONAL DEVELOPMENT AND POPULATION CHANGE

<b>2 Long-term Development Patterns of Peripheral Desert Settlements .....</b>	<b>17</b>
<i>B. A. Portnov, E. Erell</i>	
2.1 Introduction .....	17
2.2 Desert Urbanization in Israel: Prerequisites and Historical Background.....	18
2.3 Desert Settlements: Exogenous Factors.....	20
2.4 Development Paradigms.....	21
2.4.1 Economic Development of Peripheral Desert Areas .....	21
2.4.2 Population Growth .....	23
2.5 Research Method.....	24
2.6 Development Peculiarities of Desert Settlements .....	26
2.7 Influence of the Desert .....	30
2.8 Conclusions and Policy Implications .....	31
References .....	34

---

<b>3 Sustainable Population Growth of Urban Settlements:</b>	
<b>Preconditions and Criteria .....</b>	<b>37</b>
<i>B. A. Portnov, D. Pearlmutter</i>	
3.1 Introduction .....	37
3.2 Defining Sustainability .....	37
3.3 Measuring Population Growth.....	38
3.4 Urban Settlements in Israel: Inequalities of Population Growth ....	39
3.5 Patterns of Urbanization in Israel and General Development Policies.....	40
3.6 A Generalized Model of In-country Migrations.....	44
3.7 Research Method .....	46
3.8 Components of Population Growth.....	48
3.9 The MB/NG Ratio as an Integrated Indicator for Measuring the Sustainability of Population Growth .....	50
3.10 Factors Influencing Migration Attractiveness of Urban Areas .....	53
3.11 Conclusions and Policy Implications .....	54
References.....	58
<b>4 Private Construction as a General Indicator of Urban Development.....</b>	<b>61</b>
<i>B. A. Portnov, D. Pearlmutter</i>	
4.1 Introduction .....	61
4.2 Private Construction as a Development Indicator .....	62
4.3 Private Construction in Israel: Historical Background and Spatial Trends .....	64
4.3.1 History of Private Construction in Israel .....	65
4.3.2 Geographic Distribution of Private Construction in Israel: General Trends .....	65
4.4 Private Construction in the Hierarchy of Development Data.....	69
4.5 Location Paradigm .....	71
4.6 Case Study .....	74
4.7 Research Results .....	79
4.8 Applications in Planning .....	80
References.....	82
<b>5 The Effect of Remoteness and Isolation on Development of Peripheral Settlements .....</b>	<b>87</b>
<i>B. A. Portnov, E. Erell</i>	
5.1 Introduction .....	87
5.2 Sustainable Population Growth of Urban Settlements Components and Research Paradigms.....	88

---

5.2.1 Population Growth.....	88
5.2.2 Measuring Economic Development.....	89
5.3 Spatial Characteristics of Urban Development in Peripheral Areas.....	91
5.3.1 Distribution of Population and Settlement Location .....	91
5.4 Research Method.....	92
5.5 Controls .....	95
5.6 Analysis Procedure.....	97
5.7 Research Results .....	98
5.7.1 Population Growth.....	98
5.7.2 Index of Clustering .....	101
5.7.3 Climatic Harshness .....	103
5.8 Economic Development .....	104
5.9 Conclusions and Policy Implications .....	108
References.....	109
<b>6 Modeling the Migration Attractiveness of a Region .....</b>	<b>111</b>
<i>B. A. Portnov</i>	
6.1 Introduction .....	111
6.2 Employment and Housing Factors of Interregional Migration.....	112
6.3 Modeling the Migration Behavior .....	113
6.4 Housing-employment Paradigm of Interregional Migration.....	114
6.5 Israel and Japan: General Patterns of Regional Development.....	116
6.5.1 Patterns of Urbanization in Israel and Recent Development Policies.....	117
6.5.2 Current Issues of Regional and Urban Development in Japan.....	117
6.6 General Patterns of Interregional Migration .....	118
6.6.1 Israel .....	118
6.6.2 Japan .....	120
6.7 Research Method.....	122
6.8 Influencing Factors.....	125
6.9 Employment-housing Balance .....	127
6.10 Conclusion and Policy Implications .....	129
References.....	130
<b>7 Investigating the Effect of Public Policy on Population Growth in Peripheral Areas .....</b>	<b>133</b>
<i>B. A. Portnov</i>	
7.1 Introduction .....	133
7.2 Regional Policy Evaluation: Contemporary Trends .....	134
7.3 Research Methodology .....	136
7.4 Research Approach .....	138

7.5 Preliminary Results and Discussion .....	140
7.6 Modeling Procedure .....	143
7.7 Influencing Factors.....	144
7.8 Alternative Scenarios .....	145
7.9 Conclusion.....	147
References.....	148
<b>8 Ecological-oriented Options for the Sustainable Development of Drylands .....</b>	<b>153</b>
<i>U. N. Safriel</i>	
8.1 Desert and Development .....	153
8.2 Development of Hyperarid Drylands .....	154
8.3 Development of Arid Drylands.....	155
8.4 Development of Semiarid Drylands .....	155
8.5 Development of the Dry-Subhumid Drylands.....	157
References.....	158
<b>Part Two</b>	
<b>CITIES OF COLD AND HOT DESERTS</b>	
<b>9 Physical Environment and Social Attractiveness of Frontier Settlements: Cities of Siberia, Russia .....</b>	<b>161</b>
<i>B. A. Portnov</i>	
9.1 Introduction.....	161
9.2 Previous Research .....	163
9.3 The Region.....	163
9.4 The Cities.....	165
9.5 Economics of Transition .....	166
9.6 Research Method.....	167
9.7 Spatial Patterns of District Attractiveness.....	170
9.8 Components of Attractiveness.....	173
9.9 Relative Importance of Influencing Factors.....	174
9.10 “Experts” and “Residents”: Different Visions.....	176
9.11 District Attractiveness to Business Activity .....	179
9.12 IP and the Market Value of Residential Land .....	180
9.13 Social Factors.....	182
9.14 Applications in Planning.....	183
9.15 Conclusion.....	184
References .....	185

<b>10 Planning Theories versus Reality: A Desert Study Case .....</b>	<b>187</b>
<i>I. A. Meir</i>	
10.1 Introduction .....	187
10.2 A Short Note on Settlement in the Past .....	188
10.3 The Modern Era .....	188
10.3.1 Ottoman Period and the European Influences (1900-1917)	188
10.3.2 Colonialism and British Mandate (1917-1948) .....	189
10.3.3 Suburban Agriculture of the First Israeli Period (1948-1950) .....	190
10.3.4 Garden City and Neighborhood Unit (1950s) .....	191
10.3.5 The New Master Plan and Design Experimentation (1960s).....	192
10.3.6 Prefabrication, High Rise Buildings and Traffic Separation (1970s).....	193
10.3.7 Satellite Rururban Development (1980s) .....	194
10.3.8 Emergency Planning for Immigrants (the Early 1990s) .....	195
10.4 Microclimatic Variability .....	196
10.5 Conclusions .....	200
10.5.1 Positive Intervention in the Existing Fabric .....	201
10.5.2 Creating Desert Responsive Urban Forms .....	202
10.6 Theory and Implementation.....	202
References .....	203
 <b>11 An Experimental Evaluation of Strategies for Reducing Airborne Dust in Desert Cities .....</b>	 <b>205</b>
<i>E. Erell, H. Tsoar</i>	
11.1 Abstract .....	205
11.2 Introduction .....	205
11.3 Background .....	206
11.3.1 The Transport and Deposition of Dust in the Urban Environment.....	206
11.4 The Urban Climate.....	207
11.4.1 Temperature .....	208
11.4.2 Rainfall .....	208
11.4.3 Wind Regime .....	208
11.5 Experimental Sampling, Dust Deposits .....	209
11.5.1 Description of Sampling Locations .....	211
11.5.2 Field Methods.....	213
11.5.3 Laboratory Methods.....	213
11.6 Results .....	213
11.6.1 The Dust Deposition Rate .....	214
11.6.2 Grain Size Characteristics .....	215
11.6.3 Chemical and Mineralogical Composition.....	216

11.6.4 The Effects of a Major Dust Storm.....	217
11.7 Discussion .....	218
11.7.1 The Sources of Urban Dust in Desert Cities.....	218
11.7.2 The Effect of Common Design Strategies for Reducing Exposure to Airborne Dust.....	220
11.7.3 Reducing Dust in Desert Cities - A Comprehensive Approach.....	223
11.8 Conclusion.....	224
References .....	225
 <b>12 Planning in Desert Environments: Three Cases of Responsive Planning .....</b>	 227
<i>Y. Gradus</i>	
12.1 Introduction .....	227
12.2 Israel: Ideology and Planning .....	228
12.3 Settlement System.....	228
12.4 Town-planning.....	231
12.5 Bedouin Towns.....	234
12.6 Summary and Applications in Planning .....	238
References .....	239
 <b>13 The Past as a Key for the Future in Resettling the Desert .....</b>	 241
<i>A.S. Issar</i>	
13.1 Introduction .....	241
13.2 A Lost Paradigm.....	241
13.3 The Rise and Decline of the Deterministic Paradigm.....	243
13.4 The Breaking Down of the Consensus .....	244
13.5 Conclusions with Regard to the Future .....	247
Bibliography .....	248

---

**Part Three****BUILDING AND DESIGN**

 <b>14 A Desert Solar Neighborhood in Sede Boker, Israel .....</b>	 251
<i>Y. Etzion</i>	
14.1 Introduction .....	251
14.2 The Neighborhood .....	254
14.3 Orientation.....	254
14.4 Circulation.....	255

14.5 Building Clusters .....	258
14.6 Setback Lines.....	260
14.7 Water Heating.....	261
14.8 Conclusion.....	262
References .....	262
<b>15 A Bio-Climatic Approach to Desert Architecture.....</b>	<b>263</b>
<i>Y. Etzion</i>	
15.1 The Climate of the Negev.....	263
15.2 Building Design: Sealing the Envelope.....	264
15.3 Windows: Opening the Envelope by Design .....	269
15.4 The Value of the Courtyard.....	273
15.5 Performance Monitoring .....	274
<b>16 Urban Microclimate in the Desert: Planning for Outdoor Comfort under Arid Conditions .....</b>	<b>279</b>
<i>D. Pearlmutter, P. Berliner</i>	
16.1 Urban Attractiveness and the Desert Climate .....	279
16.2.1 Preconceived Planning in the Negev.....	280
16.2.2 Microclimatic Considerations .....	281
16.2 Case Study: Analyzing the Urban Microclimate.....	282
16.2.1 Summary of Case Study Results.....	284
16.2.2 Discussion: Creating the Urban “Cool Island” .....	287
16.3 Conclusions .....	288
References .....	289
<b>17 Adaptive Architecture: Low-Energy Technologies for Climate Control in the Desert .....</b>	<b>291</b>
<i>Y. Etzion, D. Pearlmutter, E. Erell, I. Meir</i>	
17.1 Introduction .....	291
17.2 The Problem - Local Climatic Conditions.....	291
17.3 The Response: Project Overview .....	293
17.4 Experimental Evaluation of the Building's Thermal Performance.....	296
17.4.1 The Sunken Atrium .....	296
17.4.2 The Evaporative Down Draft Cool Tower .....	300
17.4.3 Indirect Space Heating from Solar Heated Air.....	302
17.5 Conclusions .....	303
References .....	304
