Contents

Renovascular Surgery. By JOSEPH J. KAUFMAN and ANDREI N. LUPU, Los Angeles, CA. With 22 Figures	1
Introduction	1
A. Renovascular Hypertension	1
I. Diagnostic Tests	2
1. Radioactive Renogram	2
2. Renal Scanning	2
3. Intravenous Urography	3
4. Renal Arteriogram	4
5. Individual Kidney Function Tests	7
6. Assay of Renal Vein Plasma for Pressor Substances	9
7. Pressure Gradient and Renal Blood Flow Determinations	12
8. Renal Biopsy	12
II. Surgical Treatment	13
1. Nephrectomy	15
2. Partial Nephrectomy	15
3. Nephropexy	15
4. Surgical Approaches to the Renal Vessels	15
a) Endarterectomy	18
b) Segmental Resection and End-to-End Anastomosis of the Renal Artery	22
c) Aortorenal Bypass Grafts	23
d) Splenorenal Anastomosis	26
e) Reimplantation (Renal-Aortic)	27
f) Arteriotomy and Patch-plasty	28
g) Autotransplantation	28
5. Bilateral Renal Artery Stenosis	28
6. Medical Versus Surgical Treatment	29
B. Surgery of Renal Artery Aneurysms	29
C. Renal Artery Embolism	31
I. Technique of Embolectomy	31
D. Renal Vein Thrombosis	32
Conclusion	32
References	32
Renal Transplantation. By DONALD C. MARTIN, Irvine, CA. With 60 Figures	34
I. Renal Transplantation	34
Historical Background	34
II. Evaluation of Patients	36
A. Evaluation of the Recipient	36
1. Age	36
2. Diagnosis	36
3. Urinary Tract Status	37
4. Circulating Antibodies	37
5. Timing of the Transplant	38
6. Psychological Factors	38
B. Evaluation of the Donor	38
1. Living Donors	38
2. Cadaveric Donors	40
III. Technique of Donor Nephrectomy	41
A. Living Donor	41
1. Preparation	41
2. Surgery	41
3. After Surgery	43

B. Cadaveric Donor	43
1. General Considerations	43
2. Technique	44
3. Evaluation of Cadaver Kidney	45
4. Utilization of both Kidneys	45
IV. Technique of Recipient Implantation	45
A. Adults	45
1. Approach	45
2. Dissection	46
3. Venous Anastomosis	47
4. Arterial Anastomosis	49
5. Hemostasis	49
6. Ureteral Anastomosis	50
B. Infants	53
C. Nephrectomy in the Recipient	53
1. Indications	53
2. Techniques	54
V. Postoperative Care	54
A. Following Immediate Function of the Graft	54
1. Nursing	54
2. Fluid Balance	54
3. Immunosuppressive Agents	55
4. Antibiotics	56
B. Following Delayed Function from the Graft	56
C. Subsequent Hospital Care	58
1. Nursing	58
2. Urethral Catheter	59
3. Wound Drains	59
4. Renal Function — Graft Rejection	59
5. Laboratory Studies	61
6. Radiographic Studies	61
7. Pharmacology	61
a) Immunosuppressive Drugs	61
b) Antihypertensives	62
c) Antacid	62
D. Post Hospitalization Care	63
VI. Urological Complications and Urinary Infections	63
A. Urological Complications	63
1. Obstruction	63
2. Fistulae	68
a) Ureterocutaneous Fistulae	68
b) Ureteroureteral Fistulae	70
c) Pyelopelvic Fistulae	70
d) Vesicocutaneous Fistulae	72
B. Urinary Infections	72
VII. Other Complications Following Transplantation	74
A. Surgical Complications	74
1. Peptic Ulceration	74
2. Pancreatitis	74
3. Aseptic Necrosis of the Femoral Head	74
4. Hyperparathyroidism	75
B. Medical Complications	75
1. Hypercorticoid State (Iatrogenic Cushing's Syndrome)	75
2. Hepatitis	76
3. Arthritis, Neuritis	77
VIII. Infections	77
A. Introduction	77
1. Surgical Wound Infections	77
2. Other Pyogenic Infections	78
3. Urinary Infections	78

B. Opportunistic Infections	78
1. Introduction	78
2. Fungi	78
3. Viruses	79
4. Protozoan	81
5. Autoimmune Pneumonitis	81
C. Specific Infections	81
Tuberculosis	81
IX. Pathology	81
A. Unmodified Host	81
1. Anatomy	82
2. Physiology	82
B. Modified Host	82
1. Interstitium	82
2. Tubules	83
3. Glomeruli	83
4. Vessels	83
5. Ureter and Pelvis	88
C. Circulating Antibodies	88
D. Glomerulonephritis	90
1. Identical Twins	90
2. Non Twins	90
X. Antigen Identification and "Matching"	90
A. Introduction	90
B. Red Blood Cell Antigens	90
C. Leucocyte Antigens	91
1. Lymphocyte Cytotoxicity	91
2. Other Tests of Leucocyte Antigens	92
D. Direct Cross-Match of Recipient Serum and Donor Leucocytes	93
Summary	93
XI. Thymectomy and Splenectomy	93
A. Thymectomy	93
1. Introduction	93
2. Clinical Renal Transplantation	94
B. Splenectomy	95
1. Introduction	95
2. Laboratory Data	95
3. Clinical Data	95
XII. Renal Preservation	96
A. Introduction	96
B. Short-Term Storage	96
C. Long-Term Preservation	97
D. Permanent Preservation	98
E. Tests of Renal Injury	98
F. Biochemical Methods of Enhancing Organ Tolerance to Ischemia	99
XIII. Unusual Cases	99
A. Introduction	99
B. Erythremia	100
C. Renovascular Hypertension	101
D. Pregnancy	101
E. Transplantation of Disease	101
1. Carcinomas	101
2. Infections Diseases	102
F. Hyperparathyroidism	102
XIV. Results of Clinical Renal Transplantation	103
A. Introduction	103

B. Monozygotic Twins	103
C. Dizygotic Twins	104
D. Related Donors	104
1. Sibling Donors	104
2. Parent Donors	105
3. Other Blood Relative Donors	105
E. Cadaveric Donors	105
F. Living Unrelated Donors	106
Summary	106
References	107
Open Surgery of the Prostate. By R. F. GITTES, San Diego, CA. With 15 Figures	118
A. Introduction	118
B. Indications and Choice of Operation	118
I. Benign Prostatic Hypertrophy	118
II. Chronic Prostatitis and Prostatic Calculi	119
III. Prostatic Abscess	120
IV. Malignancy of the Prostate	120
C. Preoperative Preparation	121
I. Evaluation of Renal Function	121
II. Preoperative Infection	122
III. Coagulation Defects	122
IV. Cardiopulmonary Reserve	122
V. Cystoscopy	123
VI. Miscellaneous Factors	123
D. Techniques of Open Prostatic Surgery	123
I. Transvesical Suprapubic Prostatectomy	123
1. Indications and Contraindications	124
2. Technique	124
II. Retropubic Prostatectomy	128
1. Indications	129
2. Technique	129
III. Combined or Transvesico-Capsular Prostatectomy	132
1. Indications	132
2. Technique	133
IV. Radical Retropubic Prostatectomy	134
1. Indications	134
2. Technique	135
V. Perineal Prostatectomy	138
1. Simple Perineal Prostatectomy	139
a) Indications	139
b) Technique	140
2. Radical Perineal Prostatectomy	144
a) Indications	144
b) Technique	145
VI. Other Techniques	148
E. Postoperative Management	148
I. Antibiotics	148
II. Fluids and Diet	148
III. Catheters and Drains	149

F. Postoperative Complications	149
I. Bladder Spasms	149
II. Bleeding	150
III. Infection	152
IV. Incontinence	153
V. Operations for Male Incontinence	153
VI. Recto-urethral Fistula	155
References	156
The Neurogenic Bladder in Spinal Cord Injury. By TH. BURGHELE and V. ICHIM, Bucharest.	
With 35 Figures	160
A. The Architectonics of the Musculature of the Urinary Bladder, Terminal Ureters, Trigone and Urethra	160
I. Architectonics of the Urinary Bladder Musculature	160
1. The Bladder Wall	160
2. The Bladder Neck	162
II. Architectonics of the Musculature of the Terminal Ureters and Trigone	164
III. Architectonics of the Urethral Musculature	167
B. Innervation of the Urinary Bladder and Sphincters	169
I. Central Innervation	169
1. Cortical Centers	169
2. Subcortical Centers	170
3. Mesencephalic Centers	170
4. Hypothalamic Centers and Preoptical Area	171
5. The Pons Centers	171
6. The Cerebellum Centers	172
7. Medulla Oblongata Centers	172
II. Peripheral Vesico-Sphincteral Innervation	172
1. The Spinal Parasympathetic Micturition Reflex Center (Cholinergic)	172
2. Sympathetic or Sphinctero-Spinal Reflex Center (Adrenergic)	173
3. Somatic Reflex Spinal Center of the Striate Sphincter	173
III. Connection between the Micturition Centers in the Midbrain, Pons, Medulla Oblongata and Spinal Centers	174
C. Physiology of the Urinary Bladder and Sphincters	175
1. Continence	175
2. Voiding of the Urinary Bladder	176
D. Electrophysiology of the Urinary Bladder and Sphincters	178
I. Electric Stimulation of the Pelvic Nerve	181
1. Determination of the Parameters of the Electric Stimulus	181
a) Determination of the Optimal Duration of the Electric Stimulus	181
b) Determination of the Optimal Frequency of the Electric Stimulus	182
c) Determination of the Optimal Intensity of the Electric Stimulus	182
d) Monolateral Electric Stimulation of Long Duration	183
II. Bilateral Electric Stimulation of the Pelvic Nerves	184
1. Determination of the Optimal Parameters of the Electric Stimulus	184
a) Determination of the Optimal Duration of the Electric Stimulus in Bilateral Stimulation of the Pelvic Nerves	185
b) Determination of the Optimal Frequency of the Electric Stimulus in Bilateral Stimulation of the Pelvic Nerves	186
c) Determination of the Optimal Intensity of the Electric Stimulus in Bilateral Stimulation of the Pelvic Nerves	187
III. Fatigue Test of the Pelvic Nerves-Detrusor on Bilateral Electric Stimulation of the Pelvic Nerves	188
1. Fatigue Test on Prolonged Bilateral Electric Stimulation of the Pelvic Nerves with a Stimulus of Variable Frequency	188
2. Fatigue Test on Prolonged Bilateral Electric Stimulation of the Pelvic Nerves with a Stimulus of Variable Duration	189

IV. Irradiation of the Electrical Stimulus	190
Behaviour of the Urinary Bladder During Bilateral Electrical Stimulation of the Pelvic Nerves	193
E. Electrical Stimulation of the Neurogenic Urinary Bladder	193
I. The Difference Between Neuro- and Myostimulation of the Urinary Bladder	195
II. The Site of Implantation of the Electrodes	197
III. Pain in Electrical Stimulation of the Bladder	198
IV. Erection During Electrical Stimulation	199
V. Urethral Resistance During Electrical Stimulation of the Urinary Bladder	200
VI. The Effect of Electric Stimulation on the Pelvic Nerves	204
F. Clinical Application of Electrical Stimulation of the Neurogenic Bladder	204
I. Electrical Neurostimulation of the Urinary Bladder	204
a) The Parameters of the Electric Stimulus	205
b) Stimulation of the Pelvic Nerves in Man by Electromagnetic Induction	205
c) Clinical Cases	207
d) Deinhibition of the Sacral Micturition Reflex Center by Electrical Stimula- tion	215
II. Electrical Myostimulation of the Urinary Bladder	215
a) The Parameters of the Electric Stimulus	216
b) Resistance of the Bladder to Electrical Stimulation	217
III. Electrical Stimulation of the Anterior Sacral Roots	217
IV. Transrectal Electrical Stimulation of the Urinary Bladder	218
V. Neuro- or Myo-Electrical Stimulation of the Urinary Bladder?	218
VI. The Indications of Electrical Stimulation of the Urinary Bladder	219
1. Spinal Cord Injury	219
2. Neurologic Diseases of the Spinal Cord	220
VII. The Results of Electrical Stimulation of the Urinary Bladder	221
