# Contents

<i>1 Introduction</i> . . . . .	1
1.1 Historical Background . . . . .	2
1.2 Virological Considerations . . . . .	5
<i>2 Canine Parvovirus Disease Syndromes</i> . . . . .	8
2.1 Canine Parvovirus-Induced Myocarditis . . . . .	8
2.2 Canine Parvovirus Enteric Disease . . . . .	11
2.3 Confirmation of Canine Parvovirus Infection . . . . .	13
<i>3 Transmission</i> . . . . .	15
<i>4 Vaccination Strategies</i> . . . . .	16
4.1 Vaccination Failure I . . . . .	16
4.2 Homologous Canine Parvovirus Vaccines . . . . .	17
4.3 Vaccination Failure II . . . . .	22
4.4 Current Problems with Vaccination . . . . .	23
<i>5 Origins of Canine Parvovirus</i> . . . . .	25
5.1 Comparisons of Canine Parvovirus with Known Related Parvoviruses . . . . .	26
5.1.1 Monoclonal Antibody Techniques . . . . .	26
5.1.2 Restriction Endonuclease Analysis and Sequence Analysis of Parvovirus DNA . . . . .	28
5.2 Theories and Ideas on the Origins of Canine Parvovirus . . . . .	31
5.2.1 Recombination of Canine Adenovirus with Binn's Minute Virus of Canines . . . . .	31
5.2.2 Canine Parvovirus as a Variant of Field Strains of Mink Enteritis Virus or Feline Panleucopenia Virus . . . . .	32

VI Contents

5.2.3 Canine Parvovirus as a Variant of a Vaccine Strain  
of Feline Panleucopenia Virus . . . . . 33

5.2.4 Derivation from a Sylvatic Reservoir . . . . . 35

5.2.5 An Attempt to Correlate the Evidence . . . . . 36

5.2.6 Divergence of Two Canine Parvovirus Strains . . . . . 39

6 *Parvoviruses and Human Disease* . . . . . 40

7 *Prospects and Problems* . . . . . 42

*References* . . . . . 47
