Preface

The first European Symposium on Electric Stimulation of Bone Growth and Repair was held in Brussels on May 20, 1976. The meeting was sponsored by the Parliamentary Assembly of the Council of Europe, the Interdisciplinary Bone Biomechanics Unit of the University of Brussels, and the Department of Applied Electronics, Chalmers University of Technology, Göteborg.

The aims of the Symposium were to create and organize communication between European laboratories in the field of electric stimulation of healing processes and generally to promote international collaboration in this field.

Spring 1978

The Organizing Committee

F. BURNY, Brussels

E. HERBST, Göteborg

M. HINSENKAMP, Brussels

Contents

Electric Stimulation of Bone Growth and Repair: A Review of Different Stimulation Methods E. HERBST. With 5 Figures	1
Four-Point Measurement of the Impedance of Bone in Vivo W. SANSEN, F. De DIJCKER, S. STAN, and J.C. MULIER With 4 Figures	15
In Vitro Study of Electric Impedance of Bone B. DURAND, P. CHRISTEL, and J. ASSAILLY. With 5 Figures	19
Achievements and Discrepancies in Understanding Bone Electric Phenomena T. CIESZYNSKI. With 2 Figures	25
Physicochemical Effect of an Electric Potential on Bone Growth R. WOLLAST, M. HINSENKAMP, and F. BURNY. With 4 Figures	29
Influence of Magnetic Fields on Growth and Regeneration in Organ Culture H. GERBER, J. CORDEY, and S.M. PERREN. With 2 Figures	35
Effect of the Magnetic Field Component of the Kraus-Lechner Method on the Healing of Experimental Nonunions in Dogs H. BLÜMLEIN, J. McDANIEL, and S.M. PERREN	41
Plated Cortices and Electric Potentials M. WEIGERT	45
Effect of Direct Current on the Healing of Fractures S. STAN, J.C. MULIER, W. SANSEN, and P. DeWAELE With 6 Figures	47
Electric Stimulation of Osteogenesis: I. Experimental Study of Bone Healing in the Rabbit Tibia II. Clinical Study in Two Cases of Congenital Pseud- arthrosis of the Tibia G. von SATZGER and E. HERBST. With 6 Figures	55
Hypothesis of Bone Remodelling and Fracture Healing by Electrostimulation L.W.M. JANSSEN, J.M.M. ROELOFS, W.J. VISSER, and P. WITTEBOL. With 8 Figures	61

Electrochemical Phenomena Related to Electrodes Used for
Stimulation of Bone Formation
J. CORDEY, S. STEINEMANN, and S.M. PERREN
With 7 Figures 69

Corrosion of Implants During Electric Stimulation of
Fracture Healing
M. HINSENKAMP, F. BURNY, J. JEDWAB, and R. BOURGOIS
With 9 Figures 77

Necessity of Electric Standardization of Surgical Implants
T. CIESZYNSKI 85
