<b>Mitarbeiterverzeichnis. List of Contributors</b> .....	X
<b>Isoprenoids and Alkaloids of Tobacco.</b> By C. R. ENZELL, I. WAHLBERG, and A. J. AASEN	1
I. Introduction .....	2
II. Carotenoids and Acyclic Isoprenoids .....	8
1. Carotenoids .....	8
2. Acyclic Isoprenoids .....	10
3. Meroterpenoids .....	11
4. Nor-Compounds Derived from Cyclic Carotenoids .....	12
a) General Considerations .....	12
b) C <sub>15</sub> Constituent .....	14
c) C <sub>13</sub> Constituents .....	15
d) C <sub>12</sub> Constituent .....	20
e) C <sub>11</sub> Constituents .....	20
f) C <sub>10</sub> Constituents .....	21
g) C <sub>9</sub> Constituents .....	22
5. Nor-Compounds Derived from Acyclic Isoprenoids .....	22
III. Diterpenoids .....	24
1. Thunberganoids .....	24
2. Nor-Thunberganoids .....	28
3. Labdanoids and Nor-Labdanoids .....	35
IV. Triterpenoids and Steroids .....	41
V. Cyclic Sesqui- and Monoterpenoids .....	42
VI. Pyridine Derivatives .....	44
1. Nicotine .....	44
a) Structure and Synthesis .....	44
b) Biosynthesis .....	48
c) Metabolism in the Growing Plant .....	50
d) Post-Harvest Reactions .....	51
e) Bacterial Degradation .....	55
2. Anabasine and Structurally Related Compounds .....	56

3. Others .....	62
VII. Pyrrole and Pyrrolidine Derivatives .....	62
VIII. Pyrazine Derivatives .....	64
IX. Miscellaneous Nitrogen-Containing Constituents .....	65
References .....	66
<b>The Chemistry of the Eremophilane and Related Sesquiterpenes. By A. R. PINDER .....</b>	<b>81</b>
I. Introduction .....	82
II. Bicyclic Eremophilanes .....	83
1. Hydrocarbons .....	84
2. Alcohols .....	86
3. Ketones .....	88
4. Keto Alcohols .....	101
5. Acids .....	105
6. Esters .....	107
III. Furanoeremophilanes .....	113
1. Butenolactones .....	114
2. Furanoeremophilanes .....	117
a) Monohydric Alcohols and Their Ethers and Esters .....	118
b) Monoketones .....	122
c) Epoxides .....	124
d) Di- and Trihydric Alcohols and Their Esters and Ethers .....	126
e) Keto Alcohols and Keto Esters .....	132
f) Miscellaneous Furanoeremophilanes .....	136
g) Furanoeremophilanes from South African Plants .....	137
IV. 4- <i>epi</i> -Eremophilanes .....	142
V. Bicyclic 7- <i>epi</i> -Eremophilanes (Nootkatanes) .....	144
1. Hydrocarbons .....	144
2. Alcohols .....	148
3. Ketones .....	149
4. Esters .....	156
VI. Tricyclic 7- <i>epi</i> -Eremophilanes .....	156
1. Hydrocarbons .....	157
2. Alcohols .....	160
3. Ketones .....	161
VII. Ishwaranes .....	164
VIII. B-Noreremophilanes .....	168
1. The Bakkenolides .....	169
2. Other Noreremophilanes .....	172
IX. Biogenetic Considerations .....	172
References .....	175

<b>Phytoalexine und verwandte Pflanzenstoffe. Von D. GROSS</b> .....	187
I. Einführung .....	188
II. Präinfektionelle Abwehrstoffe .....	188
III. Postinfektionelle Abwehrstoffe .....	190
IV. Phytoalexine und phytoalexinähnliche Verbindungen .....	191
1. Polyacetylene .....	191
a) Safinol und Dehydrosafinol .....	191
b) Wyperon .....	192
c) Wyperonsäure .....	193
2. Dihydrophenanthrene .....	193
a) Orchinol .....	193
b) Hircinol .....	195
c) Loroglossol .....	195
d) Strukturverwandte Pflanzeninhaltsstoffe .....	196
3. Isoflavonoide .....	198
a) Isoflavane .....	199
b) Isoflavanone .....	201
c) Pterocarpane .....	203
4. Sesquiterpene .....	215
a) Rishitin .....	215
b) Rishitinol .....	216
c) Glutinoson .....	217
d) Capsidiol .....	217
e) Lubimin, 4-Hydroxylubimin und Isolubimin .....	219
f) Strukturverwandte Sesquiterpene .....	220
g) Gossypol .....	222
h) Hemigossypol und strukturverwandte Verbindungen .....	223
5. Furanoterpenoide .....	224
a) Ipomeamaron .....	224
b) Ipomeamaronol .....	226
c) Dehydroipomeamaron und 4-Hydroxymyoporon .....	226
6. Verschiedenes .....	226
V. Schlußbetrachtung .....	228
Literatur .....	229
<b>Studies in Secondary Metabolism with Plant Tissue Cultures. By K. H. OVERTON and D. J. PICKEN</b> .....	249
I. Introduction .....	250
II. The Chemical Potential of Plant Tissue Cultures .....	252
III. Biosynthesis of Polyisoprenoids .....	253
1. Plant Sterol Metabolism .....	253
2. Mechanism of Side Chain Ethylation in Stigmasterol Biosynthesis .....	258
3. Biosynthesis of Steroidal Sapogenins .....	260
4. Biosynthesis of Triterpenoids .....	261

5. Isomerisation of <i>trans,trans</i> - and <i>cis,trans</i> -Farnesol and the Biosynthesis of $\gamma$ -Bisabolene .....	263
6. Biosynthesis of <i>ent</i> -Kaurene .....	267
IV. Biosynthesis of Polyketides .....	268
1. Biosynthesis of Cyclopropane and Cyclopropene Fatty Acids in Higher Plants .....	268
V. Metabolism of Aromatic Plant Constituents .....	269
1. Flavonoid Biosynthesis .....	269
2. Anthocyanidin Biosynthesis .....	271
3. Retrochalcone Biosynthesis .....	273
4. Anthraquinone Biosynthesis .....	274
5. Coumarin Biosynthesis .....	275
6. Catabolism of Aromatic Plant Constituents .....	279
6.1 General .....	279
6.2 Flavonoid Catabolism .....	280
6.3 Degradation of Tyrosine by the Homogentisate Pathway .....	282
VI. Biosynthesis of Alkaloids .....	284
1. General .....	284
2. Indole Alkaloids .....	285
3. Berberine Alkaloids .....	286
4. $\beta$ -Carboline Alkaloids .....	288
5. Furoquinoline Alkaloids .....	288
6. Tropane Alkaloids .....	291
References .....	293
<b>Carbazole Alkaloids. By D. P. CHAKRABORTY .....</b>	<b>300</b>
I. Introduction .....	300
A. Nomenclature and Electronic Characteristics .....	301
B. Occurrence .....	302
C. Isolation .....	302
D. Detection of Carbazoles by Chromatographic Methods .....	303
II. Methods of Structure Elucidation .....	303
A. Physical Methods .....	303
1. Ultraviolet Absorption Spectra .....	303
2. IR Spectra .....	308
3. NMR Spectra .....	309
4. Mass Spectra .....	312
5. X-Ray Crystallographic Methods .....	315
B. Chemical Methods .....	315
Degradative Reactions .....	315
a) Zinc Dust Distillation .....	316
b) Decarbonylation and Decarboxylation .....	316
c) Demethylation .....	317

d) Ozonisation .....	317
e) Permanganate Oxidation .....	318
C. Synthesis of Carbazoles .....	319
1. Graebe-Ullmann Synthesis .....	319
2. Borsche Synthesis .....	319
3. Watermann and Vivian's Method .....	320
4. Nenitzescu Synthesis .....	320
5. Thermal Synthesis of Carbazoles .....	321
6. Photocyclisation of Diphenylamine to Carbazole .....	322
7. Anodic Oxidation .....	322
III. Biogenesis of Carbazole Alkaloids .....	323
IV. Biochemical Properties of Carbazole Alkaloids .....	327
V. Chemistry of Carbazole Alkaloids .....	328
A. Members of the C <sub>13</sub> -Skeleton Group .....	328
1. Murrayanine .....	328
2. Glycozoline .....	330
3. Glycozolidine .....	332
4. Mukoeic Acid .....	334
5. Mukonine .....	335
6. 3-Methylcarbazole .....	336
7. Mukonidine .....	337
B. Members of the C <sub>18</sub> -Skeleton Group .....	338
1. Indizoline .....	338
2. Heptaphylline .....	339
3. 6-Methoxyheptaphylline .....	341
4. Heptazoline .....	342
5. Girinimbine .....	343
6. Koenimbine .....	346
7. Heptazolidine .....	347
8. Murrayacine .....	349
9. Koenigine and Koenidine .....	352
10. Koenine .....	352
C. Members of the C <sub>23</sub> -Skeleton Group .....	353
1. Mahanimbine .....	353
2. dl-Mahanimbine .....	356
3. Mahanimbicine and Isomahanimbine .....	356
4. Mahanine .....	358
5. Mahanimbinine .....	359
6. Murrayazoline .....	359
7. Murrayazolinine .....	361
8. Murrayazolidine .....	362
9. Cyclomahanimbine .....	363
10. Bicyclomahanimbine .....	363
11. Murrayacinine .....	365
12. Bicyclomahanimbicine .....	366
