*This volume is dedicated to the memory of  
Professors Giorgio Macchi and Luigi Amaducci.  
Through their studies in neuroscience, these  
professors set the foundation for the modern  
scientific approach to multiple sclerosis in Italy.  
Their work is kept alive today by those neurologists  
who had the opportunity to learn from them.*

## Table of Contents

### Introduction

P.A. MURARO, A. LUGARESI, D. GAMBI ..... 1

### Chapter 1 - The affinity spectrum of myelin basic protein-reactive T cells

B. MAZZANTI, E. TRAGGIAI, B. HEMMER, R. MARTIN, L. MASSACESI, M. VERGELLI ... 3

### Chapter 2 - The naïve and memory MBP-reactive CD4<sup>+</sup> T cell repertoire: implications for the autoimmune concept in multiple sclerosis

P.A. MURARO, B. BIELEKOVA ..... 11

### Chapter 3 - From specificity to degeneracy to molecular mimicry: antigen recognition of human autoreactive and pathogen-specific CD4<sup>+</sup> T cells

B. HEMMER, C. PINILLA, B. GRAN, H.F. MCFARLAND, R. HOUGHTEN, R. MARTIN ..... 21

### Chapter 4 - Immune activation in the interface between innate immunity and adaptive response: in vitro studies and therapeutical implications

G. RISTORI, A. PERNA, C. MONTESPERELLI, L. BATTISTINI, R. BOMPRESZI, S. CANNONI, G. BORSELLINO, C. POZZILLI, C. BUTTINELLI, M. SALVETTI ..... 29

### Chapter 5 - Neuronal control of the immunological microenvironment in the CNS: implications on neuronal cell death and survival

H. NEUMANN, T. MISGELD, I. MEDANA ..... 37

### Chapter 6 - Levels of platelet-activating factor in cerebrospinal fluid and plasma of patients with relapsing-remitting multiple sclerosis

M. ARESE, L. CALLEA, C. FERRANDI, F. BUSSOLINO ..... 49

### Chapter 7 - The contribution of magnetic resonance imaging to the understanding of multiple sclerosis pathogenesis

M. ROVARIS, G. IANNUCCI, M. FILIPPI ..... 59

**Chapter 8 - The role of proinflammatory cytokines in multiple sclerosis**

R. FURLAN, P.L. POLIANI, A. BERGAMI, M. GIRONI, G. DESINA, G. MARTINO ..... 67

**Chapter 9 - Experimental autoimmune encephalomyelitis in the common marmoset *Callithrix jacchus***A. UCCELLI, G.L. MANCARDI, D. GIUNTI, H. BROK, L. ROCCATAGLIATA,  
E. CAPELLO, B. T'HART ..... 79**Subject Index** ..... 85

## Contributors

*M. Arese*

Department of Genetics, Biology and Biochemistry, and Institute for Cancer Research and Treatment, University of Turin, Italy

*L. Battistini*

Laboratory of Neuroimmunology, IRCCS S. Lucia, Rome, Italy

*A. Bergami*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute San Raffaele, Milan, Italy

*B. Bielekova*

Neuroimmunology Branch, National Institute of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*R. Bomprezzi*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*G. Borsellino*

Laboratory of Neuroimmunology, IRCCS S. Lucia, Rome, Italy

*H. Brok*

Department of Immunobiology, Biomedical Primate Research Centre, Rijswijk, The Netherlands

*F. Bussolino*

Department of Genetics, Biology and Biochemistry, and Institute for Cancer Research and Treatment, University of Turin, Italy

*C. Buttinelli*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*L. Callea*

Department of Neurology, Civil Hospitals, Brescia, Italy

*S. Cannoni*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*E. Capello*

Department of Neurological Sciences, University of Genoa, Italy

*G. Desina*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute San Raffaele, Milan, Italy and Department of Neurology, Casa Sollievo della Sofferenza Scientific Institute, San Giovanni Rotondo (FG), Italy

*C. Ferrandi*

Department of Genetics, Biology and Biochemistry, and Institute for Cancer Research and Treatment University of Turin, Italy

*M. Filippi*

Neuroimaging Research Unit, Department of Neuroscience, Scientific Institute San Raffaele, Milan, Italy

*R. Furlan*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute San Raffaele, Milan, Italy

*D. Gambi*

Department of Oncology and Neuroscience, Medical School, University G. D'Annunzio, Chieti, Italy

*M. Gironi*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute, San Raffaele, Milan, Italy

*D. Giunti*

Department of Neurological Sciences, University of Genoa, Italy

*B. Gran*

Cellular Immunology Section, Neuroimmunology Branch, National Institutes of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*B. Hemmer*

Neuroimmunology Section, Department of Neurology, Philipps-University of Marburg, Germany and Cellular Immunology Section, Neuroimmunology Branch, National Institutes of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*R. Houghten*

Multiple Peptide Systems and Torrey Pines Institute for Molecular Studies, San Diego, CA, USA

*G. Iannucci*

Neuroimaging Research Unit, Department of Neuroscience, Scientific Institute San Raffaele, Milan, Italy

*A. Lugaresi*

Department of Oncology and Neuroscience Medical School, University G. D'Annunzio, Chieti, Italy

*G.L. Mancardi*

Department of Neurological Sciences, University of Genoa, Italy

*R. Martin*

Cellular Immunology Section, Neuroimmunology Branch, National Institutes of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*G. Martino*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute San Raffaele, Milan, Italy

*L. Massacesi*

Department of Neurological and Psychiatric Sciences, University of Florence, Italy

*B. Mazzanti*

Department of Neurological and Psychiatric Sciences, University of Florence, Italy

*H.F. McFarland*

Cellular Immunology Section, Neuroimmunology Branch, National Institutes of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*I. Medana*

Neuroimmunology, Max-Planck Institute of Neurobiology, Martinsried, Germany

*T. Misgeld*

Neuroimmunology, Max-Planck Institute of Neurobiology, Martinsried, Germany

*C. Montesperelli*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*P. A. Muraro*

Department of Oncology and Neuroscience, Medical School, University G. D'Annunzio, Chieti, Italy and Neuroimmunology Branch, National Institutes of Neurological Disorders and Stroke, NIH, Bethesda, MD, USA

*H. Neumann*

Neuroimmunology, Max-Planck Institute of Neurobiology, Martinsried, Germany

*A. Perna*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*C. Pinilla*

Torrey Pines Institute for Molecular Studies, San Diego, CA, USA

*P.L. Poliani*

Experimental Neuroimmunotherapy Unit, Department of Neurology, DIBIT, Scientific Institute San Raffaele, Milan, Italy

*C. Pozzilli*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*G. Ristori*

First Chair of Neurology, Department of Neurosciences, Università La Sapienza, Rome, Italy

*L. Roccatagliata*

Department of Neurological Sciences, University of Genoa, Italy

*M. Rovaris*

Neuroimaging Research Unit, Department of Neuroscience, Scientific Institute San Raffaele, Milan, Italy

*M. Salvetti*

First Chair of Neurology, Department of Neurosciences, University La Sapienza, Rome, Italy

*B. t'Hart*

Department of Immunobiology, Biomedical Primate Research Centre, Rijswijk, The Netherlands

*E. Traggiai*

Department of Neurological and Psychiatric Sciences, University of Florence, Italy

*A. Uccelli*

Department of Neurological Sciences, University of Genoa, Italy

*M. Vergelli*

Department of Neurological and Psychiatric Sciences, University of Florence, Italy
