Foundation)  
Professor of Dermatology and  
of Anatomy  
Mayo Medical School  
Rochester  
Minnesota 55905  
USA

## SERIES EDITOR'S FOREWORD

---

This, the seventh volume in the New Clinical Applications Series, has an international flavour, with contributions from Australia (Mr N.C. Davis), Great Britain (Drs A.W. Macfarlane, N.C. Smith, M.F. Spittle, J.L.Verbov), and USA (Dr M.C. Finan and Professor R.K. Winkelmann).

Dr Smith discusses some common skin tumours with his characteristic informative clarity. It is appropriate that an authority such as Mr Davis should discuss a tumour that has a particularly high incidence in his own country. Dr Spittle is a recognized authority on lymphomas and she writes succinctly on their management. Dr Finan and Professor Winkelmann have extensive experience of the rare condition, necrobiotic xanthogranuloma, and Drs Macfarlane and Verbov have been involved in the management of many patients with scleromyxoedema.

I am very pleased to have had the opportunity of working with the contributors and thank them most sincerely for their efforts.

I hope that this volume will interest dermatologists, oncologists, pathologists, radiotherapists and surgeons.

JULIAN VERBOV

## ABOUT THE EDITOR

---

Dr Julian Verbov is Consultant Dermatologist to Liverpool Health Authority and Clinical Lecturer in Dermatology at the University of Liverpool.

He is a member of the British Association of Dermatologists, representing the British Society for Paediatric Dermatology on its Executive Committee. He is a Committee Member of the North of England Dermatological Society, and Editor of its *Proceedings*.

He is a Fellow of the Zoological Society of London and a Member of the Society of Authors. He is a popular national and international speaker and author of more than 200 publications.

His special interests include paediatric dermatology, inherited disorders, dermatoglyphics, pruritus ani, therapeutics, drug abuse and medical humour. He organizes the British Postgraduate Course in Paediatric Dermatology and is a Member of the Editorial Board of *Clinical and Experimental Dermatology*.
