

SESSION IV: SUPERNOVA PRECURSORS AND EXPLOSIVE NUCLEOSYNTHESIS

- I. IBEN, Jr. and A. V. TUTUKOV: An Essay on Possible Precursors of Type I Supernovae
- K. NOMOTO: Nucleosynthesis in Type I Supernovae: Carbon Deflagration and Helium Detonation Models
- K. NOMOTO: Type II Supernovae from 8-10 M_{\odot} Progenitors
- A. YAHIL: The Energetics of Type II Supernovae
- S. E. WOOSLEY, T. S. AXELROD and T. A. WEAVER: Nucleosynthesis in Stellar Explosions
